NAME: Citizens Advisory Committee on Public Health Service Activities and Research at DOE Sites: INEELHES.

TIMES AND DATES: 8:30 a.m.-4 p.m., July 1, 2003.

STATUS: Open to the public, limited only by the space available. The meeting room accommodates approximately 50 people.

BACKGROUND: Under a Memorandum of Understanding (MOU) signed in December 1990 with DOE, and replaced by MOUs signed in 1996 and 2000, the Department of Health and Human Services (HHS) was given the

responsibility and resources for conducting analytic epidemiologic investigations of residents of communities in the vicinity of DOE facilities, workers at DOE facilities, and other persons potentially exposed to radiation or to potential hazards from non-nuclear energy production use. HHS delegated program responsibility to CDC.

In addition, an MOU was signed in October 1990 and renewed in 1992, 1996, and 2000, between ATSDR and DOE. The MOU delineates the responsibilities and procedures for ATSDR's public health activities at DOE sites required under sections 104, 105, 107, and 120 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA or "Superfund"). These activities include health consultations and public health assessments at DOE sites listed on, or proposed for, the Superfund National Priorities List and at sites that are the subject of petitions from the public; and other health-related activities such as epidemiologic studies, health surveillance, exposure and disease registries, health education, substance-specific applied research, emergency response, and preparation of toxicological profiles.

PURPOSE: This subcommittee is charged with providing advice and recommendations to the Director, CDC, and the Administrator, ATSDR, regarding community concerns pertaining to CDC's and ATSDR's public health activities and research at this DOE site. The purpose of this meeting is to provide a forum for community interaction and to serve as a vehicle for community concerns to be expressed as advice and recommendations to CDC and ATSDR.

MATTERS TO BE DISCUSSED: Agenda items include a presentation on Concentrations of Pollutants in the Aquifer over a Long Period of Time; Status Report on Dose Reconstruction; DOE Low-Level Radiation Research Program; and a presentation by ATSDR on the Public Comment Draft of the Public Health Assessment. Agenda items are subject to change as priorities dictate.
