[Docket No. EL00-95-281]

San Diego Gas & Electric Company v. Sellers of Energy and Ancillary Services Into Markets Operated by the California Independent System Operator Corporation and the California Power Exchange; Notice of Compliance Filing

Take notice that on January 16, 2015, Shell Energy North America (US), L.P. submitted a compliance filing pursuant to the Commission's Opinion No. 536.¹

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project Nos. 2618-020-ME; 2660-024-ME]

Woodland Pulp LLC; Notice of Availability of Final Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects has reviewed the applications for new licenses for the West Branch Project (FERC Project No. 2618) and the Forest City Project (FERC Project No. 2660). The West Branch Project is located on the West Branch of the St. Croix River in Penobscot, Washington, and Hancock Counties, Maine. The Forest City Project is located on the East Branch of the St. Croix River in Washington and Aroostook Counties, Maine.

Staff prepared a multi-project final environmental assessment (EA), which

analyzes the potential environmental effects of licensing the projects, and concludes that licensing the projects, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the final EA is on file with the Commission and is available for public inspection. The final EA may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number, excluding the last three digits, in the docket number field, to access documents. For assistance, contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at 1-866-208-3676, or for TTY, (202) 502-8659. You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via email of new filings and issuances related to these or other pending projects. For assistance, contact FERC Online Support.

For further information, contact Amy Chang at (202) 502-8250 or amy.chang@ferc.gov.

Dated: January 20, 2015.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP15-26-000]

Kaiser-Frontier Midstream, LLC; Notice of Intent To Prepare an Environmental Assessment for the Proposed Silo Pipeline Project and Request for Comments on Environmental Issues

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the Silo Pipeline Project involving construction and operation of facilities by Kaiser-Frontier Midstream, LLC (Kaiser-Frontier) in Laramie County, Wyoming, and Weld County, Colorado. The Commission will use this EA in its decision-making process to determine whether the project is in the public convenience and necessity.

This notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies on the project. Your input will help the Commission

staff determine what issues they need to evaluate in the EA. Please note that the scoping period will close on February 20, 2015.

You may submit comments in written form. Further details on how to submit written comments are in the Public Participation section of this notice. If you sent comments on this project to the Commission before the opening of this docket on December 5, 2014, you will need to file those comments in Docket No. CP15-26-000 to ensure they are considered as part of this proceeding.

This notice is being sent to the Commission's current environmental mailing list for this project. State and local government representatives should notify their constituents of this proposed project and encourage them to comment on their areas of concern.

If you are a landowner receiving this notice, a pipeline company representative may contact you about the acquisition of an easement to construct, operate, and maintain the proposed facilities. The company would seek to negotiate a mutually acceptable agreement. However, if the Commission approves the project, that approval conveys with it the right of eminent domain. Therefore, if easement negotiations fail to produce an agreement, the pipeline company could initiate condemnation proceedings where compensation would be determined in accordance with state law.

Kaiser-Frontier provided landowners with a fact sheet prepared by the FERC entitled "An Interstate Natural Gas Facility On My Land? What Do I Need To Know?" This fact sheet addresses a number of typically-asked questions, including the use of eminent domain and how to participate in the Commission's proceedings. It is also available for viewing on the FERC Web site (www.ferc.gov).

Summary of the Proposed Project

Kaiser-Frontier plans to construct, own, and operate 21.3 miles of new natural gas pipeline (Silo Pipeline Project), to connect the Silo Processing Plant in Laramie County, Wyoming, to the Wyoming Interstate Company (WIC) interstate pipeline at the Cheyenne Hub in Weld County, Colorado.

The Silo Pipeline Project would consist of the following facilities:

- 6.8 miles of 6-inch-diameter pipeline (Northern Segment);
- 14.5 miles of 8-inch-diameter pipeline (Southern Segment);
- a 6-inch-diameter pig launcher;
- a 8-inch-diameter pig launcher;
- a 8-inch-diameter pig receiver; and
- three mainline valves.

Additionally, Kaiser-Frontier is requesting a blanket certificate pursuant to part 157, subpart F of the Commission's regulations to engage in certain routine construction, operation, and maintenance activities, and is requesting Commission certification to convert 9.9 miles of existing 6-inch-diameter intrastate pipeline facilities, known as the Middle Segment for continued operation as interstate facilities.

The general location of the project facilities is shown in appendix 1.¹

Land Requirements for Construction

Construction of the proposed facilities would disturb about 227.2 acres of land for the pipeline and aboveground facilities including 41.3 acres of additional temporary workspace to be used during construction. Following construction, Kaiser-Frontier would maintain about 123.7 acres for permanent operation of the project's facilities; the remaining 103.5 acres would be restored and allowed revert to former uses.

The EA Process

The National Environmental Policy Act (NEPA) requires the Commission to take into account the environmental impacts that could result from an action whenever it considers the issuance of a Certificate of Public Convenience and Necessity. NEPA also requires us² to discover and address concerns the public may have about proposals. This process is referred to as "scoping." The main goal of the scoping process is to focus the analysis in the EA on the important environmental issues. By this notice, the Commission requests public comments on the scope of the issues to address in the EA. We will consider all filed comments during the preparation of the EA.

In the EA we will discuss impacts that could occur as a result of the construction and operation of the proposed project under these general headings:

- Geology and soils;
- land use;
- water resources, fisheries, and wetlands;
- cultural resources;

¹ The appendices referenced in this notice will not appear in the **Federal Register**. Copies of appendices were sent to all those receiving this notice in the mail and are available at www.ferc.gov using the link called "eLibrary" or from the Commission's Public Reference Room, 888 First Street NE., Washington, DC 20426, or call (202) 502-8371. For instructions on connecting to eLibrary, refer to the last page of this notice.

² "We," "us," and "our" refer to the environmental staff of the Commission's Office of Energy Projects.
