

Report forms will be linked to reduce the reporting burden, and are designed to include check box responses, fields for reporting budget, expenditure and client data, and open-ended text boxes for describing client or service-level outcomes. The forms will automatically generate totals and percentages and include other automated fields to minimize the time required to complete the Plan and Report, and include built-in checks to minimize possible reporting errors.

The forms will require grantees to collect client, services, and outcomes information from MAI-funded service providers (sub-grantees), which grantees have already been collecting from MAI-funded providers since FY 2000. It will take grantees no longer than 15 minutes to complete a single form (response) for each MAI-funded service provided to each minority racial or ethnic minority community.

In FY 2002, grantees would have completed an average of nine forms/responses to prepare their Title I Annual

MAI Plans and eight forms/responses to prepare their Title I Annual MAI Reports. For FY 2003, the average number declined to eight and seven forms/responses respectively. Thirty-eight of the 51 grantees (75%) would have completed 10 or fewer Plans and 10 or fewer Reports during both fiscal years.

Therefore the approximate response burden for Title I grantees in completing both the Annual MAI Plan and the Annual MAI Report is estimated as:

Estimated number of grant- ee respondents	Estimated responses per grantee	Total number of responses	Hours per response	Estimated total hour bur- den
51	15	765	.25	191.25
