[Project No. 13948–002]

Public Utility District No. 1 of Snohomish County; Notice of Draft Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission’s (Commission) regulations, 18 CFR part 380, the Office of Energy Projects has reviewed the application for an original license for the proposed 6-megawatt Calligan Creek Hydroelectric Project, which would be located on Calligan Creek in King County, Washington, and has prepared an Environmental Assessment (EA) for

the project. The project would not occupy any federal lands.

The EA includes staff’s analysis of the potential environmental impacts of construction and operation of the project and concludes that licensing the project, with appropriate environmental measures, would not constitute a major federal action that would significantly affect the quality of the human environment. Based on a review of the comments received in response to the issuance of this EA, the Commission may issue a final EA.

A copy of the EA is available for review at the Commission in the Public Reference Room or may be viewed on the Commission’s Web site at <http://www.ferc.gov> using the “eLibrary” link.
