[Project No. 1256–031]

Loup River Public Power District; Notice of Availability of Draft Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission (Commission) regulations, 18 CFR Part 380 (Order No. 486, 52 Fed. Reg. 47897), the Office of Energy Projects has reviewed the application for a new license for the Loup River Hydroelectric Project (FERC Project No. 1256), located on the Loup River in

Nance and Platte counties, Nebraska, and prepared a draft environmental assessment (EA).

In the draft EA, Commission staff analyzes the potential environmental effects of licensing the project, and concludes that issuing a new license for the project, with appropriate environmental measures, would not constitute a major federal action significantly affecting the quality of the human environment.
