**DEPARTMENT OF ENERGY****Federal Energy Regulatory Commission****[Docket No. CP09-37-000]****Gulf South Pipeline Company, LP; Notice of Request Under Blanket Authorization**

December 30, 2008.

Take notice that on December 16, 2008, Gulf South Pipeline Company, LP, (Gulf South), 9 Greenway Plaza, Suite 2800, Houston, Texas 77046, filed in Docket No. CP09-37-000, an application pursuant to sections 157.205 and 157.216 of the Commission's Regulations under the Natural Gas Act (NGA) as amended, for permission and approval to abandon in place and by removal approximately 11.5 miles of inactive 20-inch diameter pipeline and associated appurtenances in various Eugene Island blocks, offshore Louisiana, under Gulf South's blanket certificate issued in Docket No. CP82-430-000,<sup>1</sup> all as more fully set forth in the application which is on file with the Commission and open to the public for inspection.

Gulf South proposes to abandon in approximately 11.5 miles of 20-inch diameter pipeline which originates at a producer platform in Eugene Island Block 57 at the upstream connection to a meter station and appurtenances to a point of connection at a Eugene Island Block 32 platform with an existing Gulf South offshore pipeline, including platform riser, pig receiver, and associated appurtenances. Gulf South states that it would abandon all of the 11.5 miles of pipeline in place, except for approximately 1,675 feet in the Atchafalaya Pass Fairway in Eugene Island Block 32, which Gulf South would remove. Gulf South also states that the facilities it proposes to abandon have been inactive since 2003 and their proposed abandonment would not affect or degrade service to Gulf South's existing customers, nor would it have an operational effect on Gulf South's system. Gulf South further states that it would cost approximately \$2,326,500 to remove pipeline and appurtenant facilities in this proceeding.
