

(2) The number of vehicles and related services required and period of use;

(3) A list of employees who are authorized to request the vehicles or related services;

(4) A listing of equipment authorized to be serviced; and

(5) Billing instructions and address.

The contracting officer will use the information to determine the contractor's eligibility to obtain IFMS vehicles and related services, and to authorize this use. The GSA will also use this information to determine whether appropriate authorization has been granted by the contracting officer.

C. Annual Burden

Respondents: 20.

Total Annual Responses: 20.

Total Burden Hours: 20.

D. Public Comment

A 60-day notice was published in the **Federal Register** at 90 FR 14446, on April 2, 2025. A comment was received; however, it did not change the estimate of the burden.

Comment: The respondent recommended no private contractor be allowed to operate government fleet vehicles because of concerns of potential abuse or misconduct.

Response: The respondents' input is appreciated. Any changes to the collection of information on the use of fleet vehicles by contractors will require rulemaking.

Obtaining Copies: Requesters may obtain a copy of the information collection documents from the GSA Regulatory Secretariat Division, by calling 202-501-4755 or emailing GSARegSec@gsa.gov. Please cite OMB Control No. 9000-0032, Contractor Use of Interagency Fleet Management System Vehicles.

[OMB Control No. 9000-0184; Docket No. FAR-2025-0053; Sequence No. 10]

Submission for OMB Review; Contractors Performing Private Security Functions Outside the United States

AGENCY: Office of Federal Procurement Policy (OFPP), Office of Management and Budget (OMB); Department of Defense (DOD); General Services Administration (GSA); and National Aeronautics and Space Administration (NASA).

ACTION: Notice.

SUMMARY: Under the provisions of the Paperwork Reduction Act, the Regulatory Secretariat Division has submitted to OMB a request to review and approve an extension of a previously approved information collection requirement regarding contractors performing private security functions outside the United States.

DATES: Submit comments on or before August 4, 2025.

ADDRESSES: Written comments and recommendations for this information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT: FARPolicy@gsa.gov or call 202-969-4075.

SUPPLEMENTARY INFORMATION:

A. OMB Control Number, Title, and Any Associated Form(s)

9000-0184, Contractors Performing Private Security Functions Outside the United States.

B. Need and Uses

This clearance covers the information that contractors must submit to comply with the following Federal Acquisition Regulation (FAR) requirements:

FAR 52.225-26, Contractors Performing Private Security Functions Outside the United States. When

contract performance is required outside the United States in an area of combat operations or significant military operations, this clause requires contractors to ensure employees performing private security functions under the contract comply with 32 CFR part 159, and any orders, directives, or instructions that are identified in the contract for:

- Registering, processing, accounting for, managing, overseeing, and keeping appropriate records of personnel performing private security functions;
- Requesting authorization of and accounting for weapons to be carried by or available to personnel performing private security functions;
- Registering and identifying armored vehicles, helicopters, and other military vehicles operated by employees performing private security functions; and
- Reporting incidents in which personnel performing private security functions: discharge a weapon; are attacked, killed, or injured; kill or injure a person or destroy property as a result of conduct by contractor personnel; have a weapon discharged against them or believe a weapon was so discharged; or employ active, non-lethal countermeasures in response to a perceived immediate threat.

The Government uses the information provided to ensure accountability, visibility, force protection, medical support, personnel recovery, and other related support can be accurately forecasted and provided to deployed contractors, as required.

C. Annual Burden

Respondents: 28.

Total Annual Responses: 140.

Total Burden Hours: 70.

D. Public Comment

A 60-day notice was published in the **Federal Register** at 90 FR 14448, on April 2, 2025. Several comments were received from four respondents; however, they did not change the estimate of the burden.

Comments on the Need and Utility of the Information Collection: Two respondents expressed support for the collection. A respondent stated that "the collection of data on private security contractors operating abroad remains necessary for accountability and human rights monitoring, but the utility can be significantly improved by requiring disaggregation of incident reports by location, contractor, and demographic details (e.g., gender, nationality, civilian vs. combatant status)."

Response: The respondents' input is appreciated. Any changes to the

collection of information on contractors performing private security functions outside the US will require rulemaking.

Comment on the Burden Estimate: A respondent stated that “the estimate of 70 burden hours annually appears low given the complexity and seriousness of the required reporting on weapons discharge incidents, personnel injuries, and military vehicle registration.” The respondent recommended reassessing the burden estimate “using recent case studies of contractor reporting complexity in areas like Iraq and Afghanistan.”

Response: The information collection burden estimate covers only contractors of non-DoD agencies. The information is collected from DoD contractors under OMB Control Number 0704-0460, Synchronized Predeployment and Operational Tracker Enterprise Suite (SPOT-ES) System.

Comments on expanding reporting requirements: Two respondents provided many recommendations to improve accuracy, timeliness, oversight, accountability, and the transparency of the collected information. Key recommendations include clarifying the definitions of “significant military operations,” “security incidents,” and “use of force”; requiring readiness certifications for medical evacuation resources; increasing transparency through public incident reports; implementing post-contract reviews; incorporating third-party incident reporting and independent audits; mandating human rights and environmental impact reporting; collecting data on contractor workforce protections, gender, and diversity; and encouraging broader adoption of automated, secure digital reporting platforms.

Response: The respondents’ input is appreciated. Any changes to the collection of information on contractors performing private security functions outside the US will require rulemaking.

Obtaining Copies: Requesters may obtain a copy of the information collection documents from the GSA Regulatory Secretariat Division, by calling 202-501-4755 or emailing GSARegSec@gsa.gov. Please cite OMB Control No. 9000-0184, Contractors Performing Private Security Functions Outside the United States.

SUPPLEMENTARY INFORMATION:

A. OMB Control Number, Title, and Any Associated Form(s)

9000-0026, Change Order Accounting and Notification of Changes.

B. Need and Uses

This clearance covers the information that contractors must submit to comply with the Federal Acquisition Regulation (FAR) part 43 requirements as stated in the following clauses:

FAR 52.243-1, Changes—Fixed-Price, 52.243-2 Changes—Cost-Reimbursement, and 52.243-3 Changes—Time-and-Materials or Labor-

Hours. Contractors are required to assert their right to an adjustment under these clauses within 30 days after receipt of a written change order from the contracting officer.

FAR 52.243-4, Changes. For acquisitions for dismantling, demolition, or removal of improvements; and fixed-price construction contracts that exceed the simplified acquisition threshold, the contractor must assert its right to an adjustment under this clause within 30 days after receipt of a written change order or the furnishing of a written notice, by submitting to the contracting officer a written statement describing the general nature and amount of proposal, unless this period is extended by the Government. The written notice covers any other written or oral order (which includes direction, instruction, interpretation, or determination) from the contracting officer that causes a change. The contractor gives the contracting officer written notice stating (1) the date, circumstances, and source of the order and (2) that the contractor regards the order as a change order. The statement of proposal for adjustment may be included in the written notice.

FAR 52.243-6, Change Order Accounting. The contracting officer may require change order accounting whenever the estimated cost of a change or series of related changes exceeds \$100,000. The contractor, for each change or series of related changes, shall maintain separate accounts, by job order or other suitable accounting procedure, of all incurred segregable, direct costs (less allocable credits) of work, both changed and not changed, allocable to the change. The contractor shall maintain these accounts until the parties agree to an equitable adjustment or the matter is conclusively disposed of under the Disputes clause. This requirement is necessary in order to be able to account properly for costs associated with changes in supply and research and development (R&D) contracts of significant technical complexity, if numerous changes are anticipated, or construction contracts if deemed appropriate by the contracting officer.

FAR 52.243-7, Notification of Changes. The clause is available for use primarily in negotiated R&D or supply contracts for the acquisition of major weapon systems or principal subsystems. If the contract amount is expected to be less than \$1,000,000, the clause shall not be used, unless the contracting officer anticipates that situations will arise that may result in a contractor alleging that the Government has effected changes other
