

part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The Palos Verdes Shelf Superfund site (PV Shelf) is a large sediment deposit off the coast of Los Angeles that contains approximately 110 tons of DDT and 10 tons of PCBs. The contaminants are in sediment too deep for direct human contact; however, fish in the PV Shelf area bioaccumulate the contaminants, exposing people who consume them to these hazardous substances. The objective of this information collection request (ICR) is to gather quantitative data that will provide estimates of angler seafood consumption in the PV Shelf area that can be used in EPA's outreach and education program and in human health risk assessments. The survey will (1) Determine the fish species that are being caught and consumed at the highest rates, (2) identify demographic and ethnic subgroups within the general fishing population of the PV Shelf area that may be consuming large quantities of contaminants through selection, quantity, and/or cooking method of fish species, (3) gather quantitative data that can be used to characterize exposures of the general fishing population of the PV Shelf area to DDTs and PCBs from consumption of fish and shellfish caught in the PV Shelf area, and (4) gather sufficient information to determine whether the existing human health risk assessment needs to be revised before its use in a final Record of Decision. Anglers will be asked to answer about a dozen questions regarding their fishing habits. Participation is voluntary and confidential. Demographic data will be collected; however, no personal identification information will be collected.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 15 minutes per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any

previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Fisherman: Individual anglers found fishing in the survey area, defined as the coastal region from Santa Monica Pier to Seal Beach Pier.

Estimated Number of Respondents: 1,392.

Frequency of Response: Once.

Estimated Total Annual Hour Burden: 90.

Estimated Total Annual Cost: \$0.

Changes in the Estimates: This is a new one-time survey, thus there is no currently approved burden.

Dated: May 25, 2011.

John Moses,

Director, Collection Strategies Division.

Cryolite Registration Review Docket; Extension of Comment Period

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; extension of comment period.

SUMMARY: EPA issued a notice in the **Federal Register** of March 30, 2011 concerning the availability of multiple registration review dockets for public comment, including cryolite. This document extends the comment period for the cryolite registration review docket only, which was due to expire on May 31, 2011, until July 5, 2011.

DATES: Comments, identified by docket identification (ID) number EPA-HQ-OPP-2011-0173, must be received on or before July 5, 2011.

ADDRESSES: Follow the detailed instructions as provided under **ADDRESSES** in the **Federal Register** document of March 30, 2011.

FOR FURTHER INFORMATION CONTACT: Eric Miederhoff, Pesticide Re-evaluation Division (7508P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; *telephone number:* (703) 347-8028; *e-mail address:* miederhoff.eric@epa.gov.

SUPPLEMENTARY INFORMATION: This document extends the public comment period established in the **Federal Register** of March 30, 2011 (76 FR 17646) (FRL-8868-9). In that document, the Agency announced the availability of multiple registration review dockets for public comment, including cryolite. EPA is hereby extending the comment period for the cryolite registration review docket only until July 5, 2011.

To submit comments, or access the docket, please follow the detailed instructions as provided under **ADDRESSES** in the March 30, 2011 **Federal Register** document. If you have questions, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

Product Cancellation Order for Certain Pesticide Registrations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's order for the cancellations, voluntarily requested by the registrants and accepted by the Agency, of the products listed in Table 1 of Unit II, pursuant to section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This cancellation order follows an August 25, 2010 **Federal Register** Notice of Receipt of Requests from the registrants listed in Table 2 of Unit II. To voluntarily cancel these product registrations. In the August 25, 2010 notice, EPA indicated that it would issue an order implementing the cancellations, unless the Agency received substantive comments within the 180-day comment period that would merit its further review of these requests, or unless the registrants withdrew their requests. The Agency received comments on the notice but these comments were exclusively on the public health mosquitocide uses. Consequently, the public health pesticide products
