Agency Information Collection Request, 30-Day Public Comment Request

AGENCY: Office of the Secretary, HHS.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Office of the Secretary (OS), Department of Health and Human Services, is publishing the following summary of a proposed collection for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions;

(2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

To obtain copies of the supporting statement and any related forms for the proposed paperwork collections referenced above, e-mail your request, including your address, phone number, OMB number, and OS document identifier, to Sherette.funncoleman@hhs.gov, or call the Reports Clearance Office on (202) 690-5683. Send written comments and recommendations for the proposed information collections within 30 days of this notice directly to the OS OMB Desk Officer; faxed to OMB at 202-395-5806.

Proposed Project: Multisite Evaluation of the *In Community Spirit* Program—Prevention of HIV/AIDS for Native/American Indian and Alaska Native Women Living in Rural and Frontier Indian Country (NEW)—OMB No. 0990-NEW—Office on Women's Health (OWH).

Abstract: The Office on Women's Health (OWH), within the Office of the Assistant Secretary for Health, will conduct the Multisite Evaluation of the *In Community Spirit* Program—Prevention of HIV/AIDS for Native/American Indian and Alaska Native (AI/

AN) Women Living in Rural and Frontier Indian Country (*In Community Spirit* Program). The *In Community Spirit* Program is an initiative comprising three types of program components being implemented with women in AI/AN communities for HIV prevention: (1) Community awareness, (2) capacity building, and (3) prevention education. The multisite evaluation will provide data on the content and context of programs and the outcomes of program activities on participant knowledge and behavior related to sexual health.

The multisite evaluation is comprised of two main activities across three program components: (1) Surveys and (2) key informant interviews. There are two versions of key informant interviews: baseline and follow-up. There are also two versions of the survey: (1) Community Awareness Version for administration with women targeted through the community awareness activities and (2) Prevention Education Version to be administered to women who receive prevention education through the program.

The average annual respondent burden is estimated below. The estimate reflects the average annual number of respondents, the average annual number of responses, the time it will take for each response, and the average annual burden across 3 years of OMB clearance, which includes 2 years of data collection.

ESTIMATED ANNUALIZED BURDEN TABLE

Form	Type of respondent	Number of respondents	Number of responses per respondent per year	Average burden per response (hrs)	Total burden hours

Proposed Project: Descriptive information of solutions provided to the Federal government in response to Challenge and Competition solicitations posted on Challenge.gov—OMB No. 0990-NEW—Immediate Office of the Secretary.

Abstract: This request is to seek generic clearance for the collection of routine information requested of responders to solicitations the Federal government makes during the issuance of challenges and competitions posted on the General Service Administration (GSA)'s Challenge.gov Web site. Since passage of the America COMPETES Act of 2011, challenge competitions are increasingly being used by Federal agencies to solve complex problems and obtain innovative solutions. In this role, the Federal government places a description of a problem and parameters of the solution on the Challenge.gov Web site. The solutions are evaluated by the submitting agency and typically prizes (monetary and non-monetary) are awarded to the winning entries.

This clearance applies to challenges posted on Challenge.gov which uses a common platform for the solicitation of challenges from the public. Each agency designs the criteria for its solicitations based on the goals of the challenge and the specific needs of the agency. There is no standard submission format for

solution providers to follow. We anticipate that approximately 100 challenges would be issued each year by HHS, with an average of 15 submissions to each challenge solicitation. It is expected that other federal agencies will issue a similar number of challenges. There is no set schedule for the issuance of challenges; they are developed and issued on an "as needs" basis in response to issues the federal agency wishes to solve. The respondents to the challenges, who are participating voluntarily, are unlikely to reply to more than one or several of the challenges.

Although in recent memoranda the GSA and Office of Management and Budget (OMB) described circumstances whereby OMB approval of a PRA request is not needed, program officials at HHS have identified several sets of information that will typically need to be requested of solution providers to enable the solutions to be adequately evaluated by the federal agency issuing the challenge.

Announcement of Requirements and Registration for Leading Health Indicators App Challenge

AGENCY: Department of Health and Human Services, Office of the Secretary, Office of the Assistant Secretary for Health, Office of Disease Prevention and Health Promotion.

ACTION: Notice.

Authority: 15 U.S.C. 3719.

SUMMARY: October 31, 2011 marks the national release of the Healthy People 2020 leading health indicators (LHIs). The LHIs were developed to communicate high-priority health issues to the public, and actions that can be taken to address them. The Office of Disease Prevention and Health Promotion, in partnership with Health 2.0 and the Office of the National Coordinator of Health IT, is launching an LHI App Challenge to encourage teams of developers and health professionals to build an application that addresses one or more LHI topics on a community level. The overall purpose of the Challenge is to provide public health practitioners, business, elected officials, clinicians and the public with applications to help achieve national priority health goals.

DATES: Effective on October 31, 2011. Important dates include the following:

October 31, 2011: Announcement of the LHI App Challenge at the 139th Annual APHA Meeting.

March 16, 2012: Deadline for Submissions.

April 10, 2012: Winners will be announced during the 2012 Health Promotion Summit in Washington, DC.

ADDRESSES: Registration opens on challenge.gov and <http://www.health2challenge.org>.
