

applicable to a national securities association.⁸ In particular, the Commission believes that the proposal, as amended, is consistent with the requirements of section 15A(b)(7) of the Act⁹ because it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system and, in general, to protect investors and the public interest. The Commission believes that the failure to have uniform application of the Affirmative Determination Requirements affects the integrity of the marketplace by potentially increasing fails to deliver and creates regulatory disparity by allowing certain firms to effect short sales outside the purview of the NASD's Affirmative Determination Requirements.

VI. Accelerated Approval of Amendment Nos. 1 and 2

The Commission finds good cause for approving Amendment Nos. 1 and 2 to the proposed rule change prior to the thirtieth day after the amendments are published for comment in the **Federal Register** pursuant to section 19(b)(2) of the Act.¹⁰ Amendment No. 1 extends NASD members' affirmative determination obligations to orders received from non-member broker-dealers. Amendment No. 2 specifies which firms can claim an exemption from the affirmative determination requirements. These amendments will correct a regulatory disparity that allows certain firms to effect short sales outside the purview of the Affirmative Determination Requirements. The Commission believes that accelerating approval will allow the implementation of this rule without unnecessary delay.

VII. Conclusion

For the foregoing reasons, the Commission finds that the proposed rule change, as amended, is consistent with the Act and the rules and regulations thereunder applicable to a national securities association, and, in particular, with section 15A(b)(7) of the Act.¹¹

⁸ In approving the proposed rule change, as amended, the Commission has considered its impact on efficiency, competition, and capital formation. See 15 U.S.C. 78c(f).

⁹ 15 U.S.C. 78o-3.

¹⁰ 15 U.S.C. 78s(b)(2).

¹¹ 15 U.S.C. 78o(3).

It is therefore ordered, pursuant to section 19(b)(2) of the Act,¹² that the proposed rule change (SR-NASD-2001-85) is approved, and that Amendment Nos. 1 and 2 thereto are approved on an accelerated basis.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.¹³

Margaret H. McFarland,
Deputy Secretary.

DEPARTMENT OF STATE

Office of the Secretary

[Public Notice: 4542]

Extension of the Restriction on the Use of United States Passports for Travel to, in, or Through Libya

On December 11, 1981, pursuant to the authority of 22 U.S.C. 211a and Executive Order 11295 (31 FR 10603), and in accordance with 22 CFR 51.73(a)(3), all United States passports were declared invalid for travel to, in, or through Libya unless specifically validated for such travel. This restriction has been renewed yearly because of the unsettled relations between the United States and the Government of Libya and the possibility of hostile acts against Americans in Libya. The American Embassy in Tripoli remains closed, thus preventing the United States from providing routine diplomatic protection or consular assistance to Americans who may travel to Libya.

In light of these events and circumstances, I have determined that Libya continues to be a country "where there is imminent danger to the public health or physical safety of United

States travellers" within the meaning of 22 U.S.C. 211a and 22 CFR 51.73(a)(3).

Accordingly, all United States passports shall remain invalid for travel to, in, or through Libya unless specifically validated for such travel under the authority of the Secretary of State.

This Public Notice shall be effective upon publication in the **Federal Register** and the restriction herein shall expire at midnight November 24, 2004, unless extended or sooner revoked by Public Notice. The Department of State will review this restriction every three months while it remains in effect.

Dated: November 17, 2003.

Colin L. Powell,

Secretary of State, Department of State.

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Environmental Impact Statement: Fond du Lac & Sheboygan Counties, Wisconsin

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of intent to prepare an environmental impact statement.

SUMMARY: The FHWA is issuing this notice to advise the public that an environmental impact statement (EIS) will be prepared for the proposed improvements of STH 23 between CTH K east of Fond du Lac in Fond du Lac County and CTH P west of Plymouth in Sheboygan County, Wisconsin.

FOR FURTHER INFORMATION CONTACT: Mr. Johnny M Gerbitz, Field Operations Engineer, Federal Highway Administration, 567 D'Onofrio Drive, Madison, Wisconsin 53719-2814; telephone: (608) 829-7511. Background

The FHWA, in cooperation with the Wisconsin Department of Transportation, will prepare an Environmental Impact Statement to construct a four-lane facility on STH 23. The project begins at CTH K east of Fond du Lac in Fond du Lac County and extends approximately 19 miles to CTH P west of Plymouth in Sheboygan County, Wisconsin.

The anticipated format for the EIS will be Screening Worksheets rather than the typical narrative form. The Wisconsin Department of Transportation has developed a series of Environmental Screening Worksheets which are divided into Basic Sheets and Factor Sheets. The Screening Worksheets provide a flexible means of addressing the requirements for an Environmental Document.

The improvements to this highway are considered necessary to decrease the potential for crashes, lower congestion, and complete the construction of a multi-lane highway facility between the Fond du Lac and Sheboygan urban areas.

Planning, environmental, and engineering studies are underway to develop transportation alternatives. The EIS will assess the need, location, and environmental impacts of alternatives within the study area. These alternatives include (1) *No Build*—this alternative assumes the continued use of existing facility with the maintenance necessary to ensure its continued use; (2) *Upgrade the Existing Facilities*—this alternative would improve the safety and traffic handling capabilities of the existing route; (3) *Construction of Added Lanes on Existing or New Alignment*—This alternative would involve one or more proposals for construction of two new lanes adjacent to the existing highway or another local roadway, constructing four lanes on new locations, or a combination of add lanes and a new location. All alternatives will examine improvements to bicycle and pedestrian facilities.

Information describing the proposed action and soliciting comments will be sent to appropriate Federal, State and local agencies and to private organizations and citizens who have previously expressed, or are known to have interest in this proposal. A series of public meetings will be held in the project corridor throughout the data gathering and development of alternatives. In addition, a public hearing will be held. Public notice will be given of the time and place of the
