SUPPLEMENTARY INFORMATION: RETAC arose from a proceeding instituted by the Board, in *Establishment of a Rail Energy Transportation Advisory Committee*, STB Ex Parte No. 670.

The purpose of this meeting is to continue discussions regarding issues such as rail performance, capacity constraints, infrastructure planning and development, and effective coordination among suppliers, carriers, and users of energy resources. Potential agenda items include reports from each of the four RETAC subcommittees (Best Practices, Capacity Planning, Communication, and Performance Measures), a briefing by the Electric Power Research Institute, a forecast update by the Energy Information Administration, a discussion of Federal Energy Regulatory Commission issues, and an open discussion of the state of the energy supply chain in light of current economic conditions.

The meeting, which is open to the public, will be conducted pursuant to RETAC's charter and Board procedures. A photo ID will be required for admission to the building. Further communications about this meeting may be announced through the Board's Web site at <http://www.stb.dot.gov>.
