**BILLING CODE 4410-18-P****DEPARTMENT OF LABOR****Employee Benefits Security Administration****[Exemption Application Nos. D-12042, D-12039, and D-12049]****Notice of Withdrawal of Proposed Exemptions****AGENCY:** Employee Benefits Security Administration, Labor.**ACTION:** Notice of withdrawal of proposed exemptions.**SUMMARY:** This document provides notice of the withdrawal of three proposed individual exemptions from certain prohibited transaction restrictions of the Employee Retirement Income Security Act (ERISA) and the Internal Revenue Code (the Code). The proposed exemptions were issued by the Department of Labor on August 24, 2022.**FOR FURTHER INFORMATION CONTACT:** Joseph Brennan of the Department at (202) 693-8456. (This is not a toll-free number.)**Withdrawal of Proposed Exemption**The Department published notices of proposed exemption from certain prohibited transaction provisions of ERISA and the Code in the **Federal Register** on August 24, 2022, for the following applicants: Triple-S Management Corporation, Blue Cross and Blue Shield of Kansas City, and the National Account Service Company LLC.<sup>1</sup> As described more fully in the proposed exemptions, the applicants sponsor defined benefit plans that have (or had) filed legal action and claims against Allianz Global Investors U.S. LLC (Allianz) and Aon Investments USA Inc. (Aon) regarding certain investment losses the plans incurred during the first quarter of 2020.

The proposed exemptions would have permitted the applicants to make payments to their respective plans in order to offset the investment losses the plans incurred, and, if the plans received litigation proceeds from the claims, to transfer the lesser of the litigation proceeds amounts or the payments to the applicants. Without an exemption, the plans' receipt of payments from the applicants in exchange for the plans' transfer of litigation proceeds to the applicants would violate certain prohibited transaction provisions of ERISA and the Code. The applicants represented to the

<sup>1</sup> Triple-S Management Corporation (87 FR 52168); Blue Cross and Blue Shield of Kansas City (87 FR 52124); National Account Service Company LLC (87 FR 52174).

Department that the plans have received litigation proceeds from the claims.

After the publication of the proposed exemptions in the **Federal Register**, the applicants informed the Department that they have decided not to pursue the proposed exemptions due to changed circumstances and requested the Department to withdraw their exemptions. Therefore, the Department is withdrawing the proposed exemptions from the **Federal Register** as requested.<sup>2</sup> As a result, the applicants may not receive repayments for any amounts they paid to their respective plans in connection with the plans' receipt of litigation proceeds from the claims, because such repayments would constitute a violation of certain prohibited transaction provisions of ERISA and the Code.

Signed in Washington, DC.

#### **SUPPLEMENTARY INFORMATION:**

*Title of Collection:* National Science Foundation (NSF) Small Business Innovation Research (SBIR)/Small Business Technology Transfer (STTR) Pre-Award Information Collection.

*OMB Control No.:* 3145–New.

*Abstract:* The NSF SBIR/STTR programs focus on transforming scientific discovery into products and services with commercial potential and/or societal benefit. Unlike fundamental or basic research activities that focus on scientific and engineering discoveries, the NSF SBIR/STTR programs support the creation of opportunities to move fundamental science and engineering out of the lab and into the market at scale, through startups and small businesses representing deep technology ventures.

The NSF SBIR/STTR programs have two phases: Phase I and Phase II. Phase I is a 6–12 month experimental or theoretical investigation that allows the awardees to determine the scientific and technical feasibility, as well as the commercial merit of the idea or concept. Phase II further develops the proposed concept, with a goal of working toward the commercial launch of the new product, process, or service being developed.

The NSF SBIR/STTR programs request the Office of Management and Budget (OMB) approval of this clearance that will allow the programs to collect information from a selected group of applicants—those that have been reviewed by independent experts and that NSF Program Directors are considering recommending for funding—for the purpose of making a funding decision. This information includes, but is not exclusive to, a list of company officers and the corresponding ownership status of each

company officer within the startup, whether the startup is associated or affiliated with other companies, whether there exist any relationships (personal, financial, and/or professional) between project personnel, and the locations of all the facilities where significant research will be performed for the proposed project. Such data will enable the NSF Program Directors to evaluate a given company's business structure, ascertain the level of commitment of the Principal Investigator (PI) and co-PIs to the startup venture, and identify conflicts of interests (if any), as part of the due diligence process that the programs undertake to verify there are no fraudulent or inappropriate business practices prior to recommending the small business for an award.

Following standard OMB requirements, NSF will request OMB approval in advance and provide OMB with a copy of the form containing these questions. Data collected will be used strictly for due-diligence, auditing, and/or legal purposes, and are needed for effective pre-award management, administration, and/or program monitoring. The applicants, if being considered for award, will only be asked to submit a signed form containing their responses to the questions once for *each* NSF SBIR/STTR proposal (Phase I and II, if applicable). The data collection burden to the selected applicants will be limited to no more than 10 minutes of the respondents' time in each instance. Summaries of the collected data are also being used to respond to queries from Congress, the Small Business Administration, the public, NSF's external merit reviewers who serve as advisors, including Committees of Visitors, NSF's Office of the Inspector General, and other pertinent stakeholders.

*Respondents:* PIs listed on the NSF SBIR/STTR proposals.

*Estimated Number of Annual*

*Respondents:* 750.

*Frequency:* Once.

*Average Time:* 0.167 hours.

*Estimated Total Burden Hours:* 126 hours per year.

*Comments:* Comments regarding (a) whether the proposed collection of information is necessary for the proper performance of the functions of the NSF, including whether the information shall have practical utility; (b) the accuracy of the NSF's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, use, and clarity of the information on respondents; and (d) ways to minimize the burden of the collection of information on those who

<sup>2</sup> In withdrawing the proposed exemptions, the Department is not expressing an opinion regarding the merits of any claim against Allianz and Aon or whether the plans' fiduciaries met their fiduciary duties with respect to plan assets that are the subject of the claims. Further, in withdrawing the proposed exemptions, the Department is not limiting any party's claim, demand, and/or cause of action arising from the plans' 2020 first quarter losses in any way.
