SUPPLEMENTARY INFORMATION:

Background

The Codex Alimentarius Commission (Codex) was established in 1963 by two United Nations organizations, the Food and Agriculture Organization (FAO) and the World Health Organization (WHO). Through adoption of food standards, codes of practice, and other guidelines developed by its committees, and by promoting their adoption and implementation by governments, Codex

seeks to protect the health of consumers and ensure that fair practices are used in trade.

The CCCF was established by Codex in 2006 as a separate Committee to establish or endorse maximum levels for contaminants and naturally occurring toxicants in food and feed; to prepare priority lists of contaminants and naturally occurring toxicants for risk assessment by the Joint FAO/WHO Expert Committee on Food Additives (JECFA); to consider methods of analysis and sampling for determination of contaminants and naturally occurring toxicants in food and feed; to consider and elaborate standards or codes of practice for related subjects; and to consider other matters assigned to it by the Commission in relation to contaminants and naturally occurring toxicants in food and feed. The Committee is hosted by The Netherlands.

Issues To Be Discussed at the Public Meeting

The following items on the agenda for the 3rd Session of the CCCF will be discussed during the public meeting:

- Draft Code of Practice for the Reduction of Contamination of Food with Polycyclic Aromatic Hydrocarbons (PAH) from Smoking and Direct Drying Processes (N07–2006).

Each item listed above will be fully described in documents distributed, or to be distributed, by the Secretariat prior to the March 23–27, 2009, meeting in

Rotterdam. Members of the public may access copies of these documents at <http://www.codexalimentarius.net/current.asp>.

Public Meeting

At the March 5, 2009, public meeting, draft U.S. positions on the agenda items will be described and discussed, and attendees will have the opportunity to pose questions and offer comments. Additional Public Notification

Public awareness of all segments of rulemaking and policy development is important. Consequently, in an effort to ensure that minorities, women, and persons with disabilities are aware of this notice, USDA will announce it online via its Food Safety and Inspection Service (FSIS) Web page located at http://www.fsis.usda.gov/regulations/2009_Notices_Index/. The Update is also available on the FSIS Web page. Through the Listserv and Web page, FSIS is able to provide information to a much broader and more diverse audience. In addition, FSIS offers an electronic mail subscription service which provides automatic and customized access to selected food safety news and information. This service is available at http://www.fsis.usda.gov/news_and_events/email_subscription/. Options range from recalls to export information to regulations, directives and notices.
