

(801) 965-4327. For USACE: Mr. Nathan Green, U.S. Corp. of Engineers, Colorado/Gunnison Basin, 400 Road Avenue, Room 142, Grand Junction, Colorado 81501 or Telephone (970) 243-1199.

SUPPLEMENTARY INFORMATION: Notice is hereby given that the FHWA, USACE, and other Federal agencies have taken final agency actions subject to 23 U.S.C. 139(l)(1) by issuing licenses, permits, and approvals for the following highway project in the State of Utah:

Browns Park Road, Red Creek to Colorado State Line in the State of Utah. The selected alternative and least environmentally damaging practicable alternative (LEPDA) will address and rectify safety and mobility deficiencies and improve emergency response times on the existing Browns Park Road by linking Browns Park Road in Utah that junctions with U.S. Highway 191 (Scenic Byway) near the Utah-Wyoming border, to Colorado State Route 318, a distance of approximately 16.8 miles. The selected alternative generally follows the existing Browns Park Road alignment except for the Jesse Ewing Canyon portion, which would be routed to the west to reduce grades and provide a safer route of travel.

The actions by the Federal agencies, and the laws under which such actions were taken, are described in the Final Environmental Impact Statement (FEIS) for the project, approved on March 31, 2006, in the FHWA Record of Decision (ROD) issued on July 27, 2006, and in other documents in the FHWA project files. The FEIS, ROD, and other project records are available by contacting the FHWA or the Utah Department of Transportation at the addresses provided above. The FHWA FEIS and ROD can be viewed and downloaded from the project Web site at <http://www.udot.utah.gov/> or viewed at public libraries in the project area. The USACE decision and permit (USACE Permit SPK-2007-1461) are available by contacting U.S. Army Corp of Engineers.

SUPPLEMENTARY INFORMATION:

I. Background

The National Transit Database (NTD) is the Federal Transit Administration's (FTA's) primary database for statistics on the transit industry. Congress established the NTD to "help meet the needs of * * * the public for information on which to base public transportation service planning * * *" (49 U.S.C. 5335). Currently, over 650 transit agencies in urbanized areas report to the NTD through an Internet-based reporting system. Each year, performance data from these submissions are used to apportion over \$4 billion of FTA funds under the Urbanized Area Formula Grants Program. These data are also used in the annual National Transit Summaries and Trends report, the biennial Conditions and Performance Report to Congress, and in meeting FTA's obligations under the Government Performance and Results Act.

For many years, it was FTA's policy to not adjust performance data submitted to the NTD to offset the effect of strikes. On March 12, 2007, FTA provided notice to NTD reporters that it was changing its policy on strikes, to permit transit agencies to request an adjustment to their NTD data that are used in the apportionment of Urbanized Area Formula Program Funds to offset the effect of strikes, retroactive to the 2005 Report Year. An internal review in FTA found that this policy had not been subject to public notice-and-comment at that time. Pursuant to 49 U.S.C. 5334(l), FTA now invites comments on this change.

II. Proposed Policy Change

FTA proposes to allow urbanized area transit agencies to request that their NTD data submissions be adjusted to offset the effects of strikes for purposes of the apportionment of Urbanized Area Formula Program Grants. Requesting transit agencies must provide FTA with documentation for the duration of the strike. FTA will then use the transit agency's NTD submissions to project performance data for the time period in question. These projections would then be added to the transit agency's NTD submission in the data sets used by FTA for the calculation of the apportionments of Urbanized Area Formula Program Grants (Section 5307 and Section 5309 Grants). The NTD data in all publicly-available data sets and data products would remain unadjusted,

and would reflect the actual NTD submission for the agency.

FTA proposes this policy change because the Section 5307 and Section 5309 Grant Programs are fundamentally designed to support the capital needs of transit agencies in urbanized areas. As such, various performance data are used to approximate the relative capital needs of the various urbanized areas. These capital needs are unaffected by strikes, even though strikes may produce a substantial decrease in the performance data for an urbanized area.

Further, FTA proposes to make this policy retroactive to the FY 2005 Report Year, to allow urbanized areas that were negatively impacted by strikes in the 2005 and 2006 Report Years in the formula apportionment to avail themselves of this policy.

Issued in Washington, DC, this 15th day of November 2007.

James S. Simpson,
Administrator.

National Transit Database: Amendments to Safety & Security Reporting Manual

AGENCY: Federal Transit Administration (FTA), DOT.

ACTION: Notice of Availability of Proposed Amendments to the 2008 National Transit Database Safety & Security Reporting Manual.

SUMMARY: This notice provides interested parties with the opportunity to comment on changes to the Federal Transit Administration's (FTA) 2008 *National Transit Database (NTD) Safety & Security Reporting Manual (Safety & Security Manual)*. Pursuant to 49 U.S.C. 5335, FTA requires those transit agencies that are reporting to the NTD from urbanized areas to provide reports within 30 days of a major safety or security incident, and to provide a monthly report on minor safety and security incidents. In an ongoing effort to improve the NTD reporting system, and to be responsive to the needs of NTD data users and of the transit agencies reporting to the NTD, FTA annually refines and clarifies the Safety & Security Module reporting requirements through revisions to the Safety & Security Manual.
