

venue and program evaluation) and program content (orientation and wrap-up sessions, program meetings, resource materials and follow-up activities). The proposal should demonstrate an understanding of the specific diversity needs in Azerbaijan and strategies for addressing these needs in terms of the project goals.

5. *Institutional capacity and record:* Proposed personnel and institutional resources should be adequate and appropriate to achieve the goals of the project. Proposals should demonstrate an institutional record of successful exchange programs, including responsible fiscal management and full compliance with all reporting requirements for past Bureau grants as determined by the grants staff. The Bureau will consider the past performance of prior recipients and the demonstrated potential of new applicants.

6. *Project Evaluation:* Proposals should include a plan to evaluate the activity's success, both as the activities unfold and at the end of the program. A draft survey questionnaire or other technique plus description of a methodology to use to link outcomes to original project objectives are recommended. Successful applicants will be expected to submit intermediate program and financial reports after each project component is concluded or quarterly, whichever is less frequent.

7. *Follow-on Activities:* Proposals should provide a plan for continued follow-on activity (without Bureau support), which ensures that Bureau supported programs are not isolated events.

8. *Cost-effectiveness:* The overhead and administrative components of the proposal, including salaries and honoraria, should be kept as low as possible. All other items should be necessary and appropriate and should reflect a commitment to pursuing project objectives. Proposals should maximize cost sharing through other private sector support as well as institutional direct funding contributions.

ACTION: Amendment of system of records to include new routine uses.

SUMMARY: In accordance with the Privacy Act (5 U.S.C. 552a(e)(4)), the Tennessee Valley Authority (TVA) is issuing notice of our intent to amend the system of records entitled TVA-31 "OIG Investigative Records—TVA" to include new routine uses. We invite public comment on this publication.

EFFECTIVE DATE: The changes will become effective as proposed on April 28, 2003, unless comments which would warrant our preventing the

changes from taking effect are received on or before 30 days from the date of this notice.

ADDRESSES: Interested individuals may comment on this publication by writing to Wilma H. McCauley, Privacy Act Officer, Tennessee Valley Authority, 1101 Market Street (EB 5B), Chattanooga, Tennessee 37402-2801. All comments received will be available for public inspection at that address.

SUPPLEMENTARY INFORMATION:

Discussion of Proposed Additions to Routine Uses

This publication is in accordance with the Privacy Act requirement that Agencies publish their amended Systems in the **Federal Register** when there is a revision, change or addition. TVA is amending the Routine Uses of Records, TVA-31, *OIG Investigative Records—TVA*, previously published at 64 FR 29398 (June 1, 1999), specifically to allow the disclosure of names and other information to the public when (1) an investigation has become public knowledge, (2) necessary to preserve confidence in the integrity of the investigative process, (3) necessary to demonstrate the accountability of individuals covered by this system, (4) a legitimate public interest exists, or (5) necessary for protection from imminent threat to life or property. These uses would allow, for example, disclosure of names of indicted or convicted individuals in the *OIG Semiannual Report*, other reports, and press releases or other forms of communication with the media. TVA's objectives in allowing disclosure of information include enhancing the deterrence of similar crimes against TVA.

In addition, the amended routine uses would allow the disclosure of information to the President's Council on Integrity and Efficiency (PCIE) for the preparation of reports to the President and Congress on the activities of the Inspectors General. Finally, the amendments would allow the disclosure of information to members of the PCIE, the Department of Justice, the Federal Bureau of Investigation, or the U.S. Marshals Service, as necessary, for the purpose of investigative qualitative assessment reviews. The PCIE is establishing a peer review process to, among other things, ensure that adequate internal safeguards and management procedures are maintained.
