SUPPLEMENTARY INFORMATION:

Summary of Information Collection

On March 10, 1999, TRICARE Management Activity (TMA), formerly known as OCHAMPUS, published a final rule in the **Federal Register** (64 FR 11765), creating a fourth class of

TRICARE providers consisting of freestanding corporations and foundations that render principally professional ambulatory or in-home care and technical diagnostic procedures. The intent of the rule was not to create additional benefits that ordinarily would not be covered under TRICARE if provided by a more traditional health care delivery system, but rather to allow those services which would otherwise be allowed except for an individual provider's affiliation with a freestanding corporate facility. The addition of the corporate class will recognize the current range of providers within today's health care delivery structure, and give beneficiaries access to another segment of the health care delivery industry. Corporate services providers must be approved for Medicare payment, or when Medicare approval status is not required, be accredited by a qualified accreditation organization to gain provider authorization status under TRICARE. Corporate services providers must also enter into a participation agreement which will be sent out as part of the initial authorization process. The participation agreement will ensure that TRICARE determined allowable payments, combined with the cost-share/copayment, deductible, and other health insurance amounts, will be accepted by the provider as payment in full.

The application for TRICARE-Provider Status: Corporate Services Provider, will collect the necessary information to ensure that the conditions are met for authorization as a TRICARE corporate services provider: *i.e.*, the provider (1) is a corporation or a foundation, but not a professional corporation or professional association; (2) provides services and related supplies of a type rendered by TRICARE individual professional providers or diagnostic technical services; (3) is approved for Medicare payment or when Medicare approval status is not required, is accredited by a qualified accreditation organization; and (4) has entered into a participation agreement approved by the Executive Director, TMA or a designee.

The collected information will be used by TRICARE contractors to process claims and verify authorized provider status. Verification involves collecting and reviewing copies of the provider's licenses, certificates, accreditation documents, etc. If the criteria are met, the provider is granted TRICARE-authorization status. The documentation and information are collected when: (1) A provider requests permission to become a TRICARE-authorized provider; (2) a claim is filed for care
