SUPPLEMENTARY INFORMATION:

I. Abstract

The NASA Office of Education seeks a generic clearance to administer surveys through the Office of Education Performance Measurement (OEPM) system. Data Collection through the OEPM system will be used for reporting on Program Assessment Rating Tool (PART) measures, Program Analysis and Evaluation (PA&E), and answering Congressional inquiries about NASA education programs.

II. Method of Collection

Data collected will be primarily electronic. Teachers, students, and interested members of public who have attended or participated in NASA funded education events and activities will be sent an email with a link that, when clicked, will route the participant to the relevant survey.

At events where computers might not be available, a paper version of a select number of surveys will be available. Surveys will be scanned into the OEPM system through a fax machine or scanner.

NUCLEAR REGULATORY COMMISSION

[NRC-2009-0473]

Notice; Applications and Amendments to Facility Operating Licenses Involving Proposed No Significant Hazards Considerations and Containing Sensitive Unclassified Non-Safeguards Information and Order Imposing Procedures for Access to Sensitive Unclassified Non-Safeguards Information

I. Background

Pursuant to section 189a.(2) of the Atomic Energy Act of 1954, as amended (the Act), the U.S. Nuclear Regulatory Commission (the Commission or NRC staff) is publishing this notice. The Act requires the Commission to publish notice of any amendments issued, or proposed to be issued and grants the Commission the authority to issue and make immediately effective any amendment to an operating license upon a determination by the Commission that such amendment involves no significant hazards consideration, notwithstanding the pendency before the Commission of a request for a hearing from any person.

This notice includes notices of amendments containing sensitive unclassified non-safeguards information (SUNSI).

The Commission has made a proposed determination that the following amendment requests involve no significant hazards consideration. Under the Commission's regulations in Title 10 of the Code of Federal Regulations (10 CFR), Section 50.92, this means that operation of the facility in accordance with the proposed amendment would not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety. The basis for this proposed determination for each amendment request is shown below.

The Commission is seeking public comments on this proposed determination. Any comments received within 30 days after the date of
