

COMMODITY FUTURES TRADING COMMISSION

Sunshine Act Meetings

TIME AND DATE: 1:30 p.m. EDT, Monday, September 27, 2021.

PLACE: Virtual meeting.

STATUS: Closed.

MATTERS TO BE CONSIDERED:

Enforcement matters. In the event that the time, date, or location of this meeting changes, an announcement of the change, along with the new time, date, and/or place of the meeting will be posted on the Commission's website at <https://www.cftc.gov/>.

CONTACT PERSON FOR MORE INFORMATION: Christopher Kirkpatrick, 202-418-5964.

Authority: 5 U.S.C. 552b.

Dated: September 16, 2021.

Christopher Kirkpatrick,

Secretary of the Commission.

[FR Doc. 2021-20416 Filed 9-16-21; 4:15 pm]

BILLING CODE 6351-01-P

DEPARTMENT OF DEFENSE

Department of the Air Force

[Docket ID: USAF-2021-HQ-0007]

Proposed Collection; Comment Request

AGENCY: Department of the Air Force, Department of Defense (DoD).

ACTION: Information collection notice.

SUMMARY: In compliance with the *Paperwork Reduction Act of 1995*, the Department of the Air Force announces a proposed public information collection and seeks public comment on the provisions thereof. Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; the accuracy of the agency's estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Consideration will be given to all comments received by November 19, 2021.

ADDRESSES: You may submit comments, identified by docket number and title, by any of the following methods:

Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments.

Mail: DoD cannot receive written comments at this time due to the COVID-19 pandemic. Comments should be sent electronically to the docket listed above.

Instructions: All submissions received must include the agency name, docket number and title for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

FOR FURTHER INFORMATION CONTACT: To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to Ms. Angela Duncan at the Department of Defense, Washington Headquarters Services, ATTN: Executive Services Directorate, Directives Division, 4800 Mark Center Drive, Suite 03F09-09, Alexandria, VA 22350-3100 or call 571-372-7574.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Air Force Family Integrated Results & Statistical Tracking (AFFIRST) Automated System; OMB Control Number 0701-0070.

Needs and Uses: The information collection requirement is necessary to record demographic information on Airman & Family Readiness Center (A&FRC) customers, results of the customer's visits, determine customer needs, service plan, referrals, workshop attendance and other related A&FRC activities and services accessed by the customer. Data is used to determine the effectiveness of A&FRC activities and services (results management) as well as collect and provide return on investment data to leadership. Information is compiled for statistical reporting to bases, major commands, Headquarters United States Air Force, Department of Defense and Congress.

Affected Public: Individuals or households.

Annual Burden Hours: 9,375 hours.

Number of Respondents: 37,500.

Responses per Respondent: 1.

Annual Responses: 37,500.

Average Burden per Response: 15 minutes.

Frequency: On occasion.

Dated: September 13, 2021.

Aaron T. Siegel,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 5001-06-P

DEPARTMENT OF DEFENSE

Department of the Army

Notice of Intent To Prepare a Supplemental Environmental Impact Statement for Updates to the Implementation of Howard A. Hanson Dam Downstream Fish Passage, Washington

AGENCY: U.S. Army Corps of Engineers, Department of the Army, DoD.

ACTION: Notice of intent.

SUMMARY: The U.S. Army Corps of Engineers (USACE), Seattle District, is announcing its intent to prepare a supplemental environmental impact statement (SEIS) in compliance with the National Environmental Policy Act for the express purpose of addressing updates to the implementation of Howard A. Hanson Dam (HAHD) downstream fish passage to be instituted as part of the Additional Water Storage Project on the Green River in King County, Washington. The SEIS will supplement the *HAHD Additional Water Storage Project Final Feasibility Report and Final EIS* (August 1998) prepared by USACE.

ADDRESSES: USACE Seattle District, CENWS-PMP-E, P.O. Box 3755, Seattle, WA, 98124-3755.

FOR FURTHER INFORMATION CONTACT: Ms. Nancy Gleason, Environmental Coordinator, 206-764-6577 or Ms. Katherine LaPonte, Project Manager, 206-351-6077; email to HAHD-fishpassage@usace.army.mil; or mail to USACE Seattle District, CENWS-PMP-E, P.O. Box 3755, Seattle, WA 98124-3755.

SUPPLEMENTARY INFORMATION: The USACE, Seattle District, will prepare an SEIS in accordance with 33 CFR 230.13(b) for proposed modifications to the recommended alternative for the downstream fish passage component of the previously authorized HAHD Additional Water Storage Project in King County, Washington. The scope of this SEIS will not extend to other elements of the project related to water supply or ecosystem restoration, as those components were not materially altered from the description evaluated in the 1998 EIS and have already been implemented. The purpose of the fish passage component of the larger

Additional Water Storage Project remains the same as the original EIS: To successfully pass migrating juvenile fish downstream.

The 1998 EIS evaluated a fish passage facility generally consisting of a floating fish collector. In their 2019 Biological Opinion (BiOp) for HAHD operations and maintenance, the National Marine Fisheries Service (NMFS) established survival criteria and transport pipe exit release location criteria that must be met by any fish passage facility for the project. In order to meet these criteria, the USACE has redesigned the downstream fish passage component of the project. In this SEIS, the USACE will evaluate implementation of downstream fish passage via a fixed multiport collection structure that would allow fish collection from a set of five intake ports at multiple elevations as the reservoir water level changes. Once collected through the multiport structure, fish would be transported downstream using one or more steep bypass pipes. The SEIS will evaluate and provide supplemental analysis, as applicable, on any impacts generated by the modification of the downstream fish passage component of the recommended alternative to the quality of the human environment not identified and evaluated in the August 1998 Final EIS. Evaluation may extend, for example, to potential changes in the study area to aquatic habitat, different species listed under the Endangered Species Act (ESA) in the study area, potential changes to the geological analysis associated with the construction of a fish passage facility, potential impacts to natural resources during construction, including elevated noise and disturbance to fish and wildlife at HAHD from rock blasting and operation of construction equipment, potential effects to cultural and historical resources, and temporary effects to water quality and aquatic habitat from construction.

As identified in the original EIS, USACE continues to propose monitoring to determine whether the facility provides safe downstream passage for fish. Once operational, the fish passage facility is expected to have significant benefits to ESA-listed salmonids thereby benefiting the ecosystem of the entire Green River watershed, as well as increasing a primary food source for the endangered Southern Resident killer whales. The anticipated authorizations required prior to construction are expected to include a BiOp from the U.S. Fish and Wildlife Service, a Clean Water Act Section 401 Water Quality Certification, concurrence from the Washington

Department of Ecology on a Coastal Zone Management Act Consistency Determination, and consultation under Section 106 of the National Historic Preservation Act.

The SEIS will follow the same process and format as the original EIS (*i.e.*, draft, final, updated record of decision (ROD)), except that scoping is not required. The original EIS and other project documents are available online at <https://www.nws.usace.army.mil/Missions/Environmental/Environmental-Documents/>.

The draft SEIS will be made available for public and agency review and comment, which is expected to occur in October 2021. After public review of the draft SEIS and evaluation of the comments received, USACE will promulgate a final SEIS; this is expected to occur in 2022.

Comments or questions concerning this proposed action can be directed to the USACE contacts listed above.

Geoffrey Van Epps,

Colonel, U.S. Army, Division Commander.

BILLING CODE 3720–58–P

DEPARTMENT OF DEFENSE

Office of the Secretary

[Docket ID: DoD–2021–OS–0099]

Proposed Collection; Comment Request

AGENCY: Under Secretary of Defense for Acquisition and Sustainment, Department of Defense (DoD).

ACTION: Information collection notice.

SUMMARY: In compliance with the *Paperwork Reduction Act of 1995*, the Defense Logistics Agency (DLA) announces a proposed public information collection and seeks public comment on the provisions thereof. Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; the accuracy of the agency's estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Consideration will be given to all comments received by November 19, 2021.

ADDRESSES: You may submit comments, identified by docket number and title, by any of the following methods:

Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments.

Mail: DoD cannot receive written comments at this time due to the COVID–19 pandemic. Comments should be sent electronically to the docket listed above.

Instructions: All submissions received must include the agency name, docket number and title for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

FOR FURTHER INFORMATION CONTACT:

To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to the Defense Logistics Agency, Office of Small Business Programs, ATTN: Sherry Savage, 8725 John J. Kingman Road, Fort Belvoir, VA 22060 or call (571) 767–1656.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Procurement Technical Assistance Center Cooperative Agreement Performance Report; DLA Form 1806; OMB Control Number 0704–0320.

Needs and Uses: This information collection by the Defense Logistics Agency (DLA) gathers data to be used in measuring, on a quarterly basis, cooperative agreement recipients' performance against goals and objectives established by awards. The Department of Defense (DoD) Procurement Technical Assistance (PTA) Cooperative Agreement Program was established by Congress in 1985 to assist state and local governments, tribal organizations, tribal economic enterprises, and other non-profit entities in establishing or maintaining PTA activities to help business firms market their goods and services to the DoD, other federal agencies, and state and local governments. Administrative requirements for the program are established by the DoD Grant and Agreement Regulations (DoDGARS).

Affected Public: State, Local, or Tribal Government; Not-for-Profit Institutions.

Annual Burden Hours: 1,900.

Number of Respondents: 95.

Responses per Respondent: 4.

Annual Responses: 380.
