

on January 15, 2003, stating that the motor vehicle emissions budgets in the submitted Fort Collins CO maintenance plan are adequate. This finding has also been announced on our conformity Web site at <http://www.epa.gov/otaq/transp/conform/adequacy.htm>.

Transportation conformity is required by section 176(c) of the Clean Air Act. Our conformity rule requires that transportation plans, programs, and projects conform to SIPs and establishes the criteria and procedures for determining whether or not they do. Conformity to a SIP means that transportation activities will not produce new air quality violations, worsen existing violations, or delay timely attainment of the national ambient air quality standards.

The criteria by which we determine whether a SIP's motor vehicle emission budgets are adequate for conformity purposes are outlined in 40 CFR 93.118(e)(4). Please note that an adequacy review is separate from our completeness review, and it also should not be used to prejudice our ultimate approval of the SIP. Even if we find a budget adequate, the SIP could later be disapproved, and vice versa.

We've described our process for determining the adequacy of submitted SIP budgets in a memo entitled, "Conformity Guidance on Implementation of March 2, 1999 Conformity Court Decision," dated May 14, 1999. We followed this guidance in making our adequacy determination.
