

(2) As an alternative, the petitioner proposes to operate the man cage or steel gunboat with secondary safety connections securely fastened around the gunboat and to the hoisting rope above the main connecting device and use hoisting ropes having a factor of safety in excess of the 4 to 8 to 1 as suggested in the American Standards Specifications for the Use of Wire Rope for Mines.

The petitioner asserts that the proposed alternative method will provide no less than the same measure or protection afforded the miners under the existing standard.

Sheila McConnell,

Acting Director, Office of Standards, Regulations, and Variances.
