### Federal Energy Regulatory Commission

[Docket No. CP25-37-000]

#### Notice of Schedule for the Preparation of an Environmental Assessment for the Transwestern Pipeline Company, LLC WT-0 Compressor Station Project

On December 20, 2024, Transwestern Pipeline Company, LLC (Transwestern) filed an application in Docket No. CP25-37-000 requesting a Certificate of Public Convenience and Necessity pursuant to Section 7(c) of the Natural Gas Act to construct, own, operate, and maintain a new compressor station in Chaves County, New Mexico. This WT-0 Compressor Station Project (Project) would provide about 80,000 million British thermal units per day of new firm transportation capacity, including receipts of natural gas in Transwestern's West Texas Lateral Central Zone and deliveries on the Transwestern Panhandle Lateral.

On January 8, 2025, the Federal Energy Regulatory Commission (Commission or FERC) issued its Notice of Application for the Project. Among other things, that notice alerted agencies issuing federal authorizations of the requirement to complete all necessary reviews and to reach a final decision on a request for a federal authorization within 90 days of the date of issuance of the Commission staff's environmental document for the Project.

This notice identifies Commission staff's intention to prepare an

environmental assessment (EA) for the Project and the planned schedule for the completion of the environmental review.<sup>1</sup> The EA will be issued for a 30-day comment period.

#### Schedule for Environmental Review

Issuance of EA—August 1, 2025

90-day Federal Authorization Decision

Deadline<sup>2</sup>—October 30, 2025

If a schedule change becomes necessary, additional notice will be provided so that the relevant agencies are kept informed of the Project's progress.

#### Project Description

The WT-0 Compressor Station Project would consist of the following facilities in Chaves County, New Mexico:

- a new WT-0 Compressor Station including one new 13,220-horsepower Solar Mars 90 natural gas turbine-driven compressor;
- metering facilities, including an inlet filter separator and fuel gas measurement skid;
- tie-in to Transwestern's existing 24-inch-diameter dual lateral pipeline in its existing corridor; and
- a new, permanent access road off Harriet Road extending into the compressor station site.

#### Background

On February 3, 2025, the Commission issued a *Notice of Scoping Period Requesting Comments on Environmental Issues for the Proposed WT-0 Compressor Station Project* (Notice of Scoping). The Notice of Scoping was sent to affected landowners; federal, state, and local government agencies;<sup>3</sup> elected officials; environmental and public interest groups; Native American tribes; other interested parties; and local libraries and newspapers. In response to the Notice of Scoping, the Commission received comments from the Santa Clara Pueblo and the New Mexico Department

<sup>1</sup> For tracking purposes under the National Environmental Policy Act, the unique identification number for documents relating to this environmental review is EAXX-019-20-000-1742295781.

<sup>2</sup> The Commission's deadline applies to the decisions of other federal agencies, and state agencies acting under federally delegated authority, that are responsible for federal authorizations, permits, and other approvals necessary for proposed projects under the Natural Gas Act. Per 18 CFR 157.22(a), the Commission's deadline for other agency's decisions applies unless a schedule is otherwise established by federal law.

<sup>3</sup> The new compressor station would be sited entirely on land managed by the U.S. Bureau of Land Management (BLM). The BLM has agreed to be a cooperating agency for the preparation of the EA.

of Game and Fish. All substantive comments will be addressed in the EA.
