SUPPLEMENTARY INFORMATION:

Title of Collection: CyberCorps® SFS Scholarship Agreement to Serve or Repay.

OMB Control No.: 3145–NEW.

Type of Request: Intent to seek approval to establish an information collection for three years.

Abstract: NSF published a Notice of Proposed Rulemaking on July 15, 2022 (87 FR 42431), which included a requirement for an information

collection. The proposed rule set forth additional information collection activities subject to OMB clearance and approval under the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*) (PRA). OPM, in operating the SFS program office on behalf of NSF, already has OMB clearance for information collected from scholarship recipients and others through its SFS online Web portal, which NSF's rule does not modify. See OMB Control Number 3206-0246.¹

The additional information to be collected under the NSF's rule includes any additional employment, contact, or other information relating to a scholarship recipient's repayment obligation if the recipient fails to fulfill the terms and conditions of the scholarship, the conversion of that obligation into a Federal direct unsubsidized student loan administered by and payable to the Department of Education, and/or the referral of that repayment obligation to the Department of Treasury for amounts that remain unpaid and cannot be converted to such a loan. See § 620.3, § 620.6. This information collection activity would also include any form, questionnaire, or other set of identical questions relating to a scholarship recipient's request to defer or waive their service or repayment obligation. See § 620.4, § 620.5. The proposed rule document provided an estimate of the total number of respondents and annual burden hours. NSF received no public comments on the proposed information collection activities or burden estimates.

Use of the Information: Information collected from scholarship recipients will be used to monitor their compliance with the program's service obligation, to update and maintain their current contact information in relevant agency records maintained by NSF and OPM, to answer questions regarding the recipient's repayment obligation or the conversion of that obligation to an unsubsidized student loan for collection purposes by the Department of Education, and to review and determine whether to grant or deny any individual requests or appeals to NSF for discharge or deferral of their repayment or service obligation. Information pertaining to the conversion of the recipient's obligation to a Federal unsubsidized student loan may be forwarded to and used by NSF, the Department of Education, and Department of Treasury, as applicable,

for student loan management, tracking, and collection purposes. Information may also be used to prepare and disseminate aggregate statistics or other data to fulfill statutory program tracking, reporting, and evaluation requirements.

Expected Respondents: Individual participants in the CyberCorps Scholarships for Service Program.

Estimated Number of Annual Respondents: 20.

Burden on the Public: 2 hours minutes per respondent for an estimated 40 hours annually.

Dated: April 24, 2023.

Suzanne H. Plimpton,

Reports Clearance Officer, National Science Foundation.
