

Pollution Prevention practices, methodology for bark monitoring surveys, the areas excluded from permit coverage, and administrative corrections. In response to comments, the section 402 modifications to section 404 permits issued prior to October 22, 1985 are being issued in a separate general permit (AK-G70-0000).

Legal Requirements

Coastal Zone Management Act

The State of Alaska, Office of Management and Budget, Division of Governmental Coordination found this action to be consistent with the approved Alaska Coastal Zone Management Program.

Endangered Species Act and Essential Fish Habitat

Consultation under the Endangered Species Act was conducted with the U.S. Fish and Wildlife Service and National Marine Fisheries Service. The EPA determined that the actions are not likely to adversely affect any threatened or listed species. EPA has also made a determination that the actions have no adverse effects on Essential Fish Habitat.

State Water Quality Standards and State Certification

The State of Alaska, Department of Environmental Conservation, has certified under section 401 of the Clean Water Act, that the subject discharges under both general permits comply with the Alaska State Water Quality Standards and sections 208(e), 301, 302, 303, 306 and 307 of the Clean Water Act.

Executive Order 12866

EPA has determined that this general permit is not a "significant regulatory action" under the terms of Executive Order 12866 and is therefore not subject to OMB review.

Paperwork Reduction Act

The information collection requirements of this permit were previously approved by the Office of Management and Budget (OMB) under the provisions of the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.* and assigned OMB control numbers 2040-0086 (NPDES permit application) and 2040-0004 (discharge monitoring reports).

Regulatory Flexibility Act

The Regulatory Flexibility Act (RFA), 5 U.S.C. 601 *et seq.*, requires that EPA prepare a regulatory flexibility analysis for rules subject to the requirements of 5 U.S.C. 553(b) that have a significant

impact on a substantial number of small entities. The permit issued today, however, is not a "rule" subject to the requirements of 5 U.S.C. 553(b) and is therefore not subject to the RFA.

Unfunded Mandates Reform Act

Section 201 of the Unfunded Mandates Reform Act (UMRA), Public Law 104-4, generally requires Federal agencies to assess the effects of their "regulatory actions" (defined to be the same as "rules" subject to the RFA) on tribal, state, and local governments and the private sector. The permit issued today, however, is not a "rule" subject to the RFA and is therefore not subject to the requirements of UMRA.

Appeal of Permit

Any interested person may appeal the Log Transfer Facility General NPDES permits in the Federal Court of Appeals in accordance with section 509(b)(1) of the Clean Water Act. This appeal must be filed within 120 days of the permit effective date. The permit effective date is defined at 40 CFR 23.2 to be at 1:00 p.m. eastern time, two weeks after the date of publication in the **Federal Register**. Persons affected by a general NPDES permit may not challenge the conditions of the permit as a right of further EPA proceedings. Instead, they may either challenge the permit in court or apply for an individual NPDES permit and then request a formal hearing on the issuance or denial of an individual NPDES permit.
