Information Collection Request

Title: Direct User Fees for Inspection or Examination of U.S. and Foreign Commercial Vessels.

This notice relies on the authority of the Paperwork Reduction Act of 1995; 44 U.S.C. 3501 *et seq.*, chapter 35, as amended. An ICR is an application to OIRA seeking the approval, extension, or renewal of a Coast Guard collection of information (Collection). The ICR contains information describing the Collection's purpose, the Collection's likely burden on the affected public, an explanation of the necessity of the Collection, and other important information describing the Collection. There is one ICR for each Collection.

The Coast Guard invites comments on whether this ICR should be granted based on the Collection being necessary for the proper performance of Departmental functions. In particular, the Coast Guard would appreciate comments addressing: (1) The practical utility of the Collection; (2) the accuracy of the estimated burden of the Collection; (3) ways to enhance the quality, utility, and clarity of information subject to the Collection; and (4) ways to minimize the burden of the Collection on respondents, including the use of automated collection techniques or other forms of information technology. These comments will help OIRA determine whether to approve the ICR referred to in this Notice.

We encourage you to respond to this request by submitting comments and related materials. Comments to Coast Guard or OIRA must contain the OMB Control Number of the ICR. They must also contain the docket number of this request, [USCG-2022-0151], and must be received by June 22, 2022.

Previous Request for Comments

This request provides a 30-day comment period required by OIRA. The Coast Guard published the 60-day notice (87 FR 13740, March 10, 2022) required by 44 U.S.C. 3506(c)(2). That notice elicited no comments. Accordingly, no changes have been made to the Collection.

Information Collection Request

Title: Report of Oil or Hazardous Substance Discharge; and Report of Suspicious Maritime Activity.

OMB Control Number: 1625-0096.

Summary: Any discharge of oil or a hazardous substance must be reported to the National Response Center (NRC) so that the pre-designated on-scene coordinator can be informed and appropriate spill mitigation action carried out. The NRC also receives suspicious activity reports from the public and disseminates this information to appropriate entities.

Need: 33 CFR 153.203, 40 CFR 263.30 and 264.56, and 49 CFR 171.15 mandate that the NRC be the central place for the public to report all pollution spills. 33 CFR 101.305 mandates that owners or operators of those vessels or facilities required to have security plans, report activities that may result in a Transportation Security Incident (TSI) or breaches of security to the NRC. Voluntary reports are also accepted.

Forms: None.

Respondents: Persons-in-charge of a vessel or onshore/offshore facility; owners or operators of vessels or facilities required to have security plans; and the public.

Frequency: On occasion.

Hour Burden Estimate: The estimated burden has increased from 1,980 hours to 3,683 hours a year, due primarily to an increase in the estimated hour burden per response. The Coast Guard revised the hour burden per response from 5 minutes to 8.5 minutes per response. Based on recent NRC data, the change more accurately reflect the time per response.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. *et seq.*, chapter 35, as amended.

Dated: May 17, 2022.
