

iii. Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.

iv. Describe any assumptions and provide any technical information and/or data that you used.

v. If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.

vi. Provide specific examples to illustrate your concerns and suggest alternatives.

vii. Explain your views as clearly as possible, avoiding the use of profanity or personal threats.

viii. Make sure to submit your comments by the comment period deadline identified.

II. Background

A. What Action is the Agency Taking?

Under section 4 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), EPA is reevaluating existing pesticides to ensure that they meet current scientific and regulatory standards. EPA has completed a RED for the pesticide 4-aminopyridine under section 4(g)(2)(A) of FIFRA. 4-aminopyridine is a restricted use avicide used to control birds of public health concern around nesting, feeding, loafing, and roosting sites on or in the area of structures, feedlots, landfills, and airports. Pigeons; house sparrows; crows; some species of grackles; cowbirds; starlings; red-winged, yellow-headed, rusty, and Brewers blackbirds are listed as target species on 4-aminopyridine labels. EPA has determined that the data base to support reregistration is substantially complete and that treated bait products containing 4-aminopyridine are eligible for reregistration, provided the risks are mitigated in the manner described in the RED. Upon submission of any required product specific data under section 4(g)(2)(B) of FIFRA and any necessary changes to the registration and labeling (either to address concerns identified in the RED or as a result of product specific data), EPA will make a final reregistration decision under section 4(g)(2)(C) of FIFRA for products containing 4-aminopyridine.

EPA applying the principles of public participation to all pesticides undergoing reregistration and tolerance reassessment. The Agency's Pesticide Tolerance Reassessment and Reregistration; Public Participation Process, published in the **Federal Register** on May 14, 2004, (69 FR 26819) (FRL-7357-9) explains that in conducting these programs, EPA is tailoring its public participation process

to be commensurate with the level of risk, extent of use, complexity of issues, and degree of public concern associated with each pesticide. Due to its uses, risks, and other factors, 4-aminopyridine was reviewed through the modified 4-Phase process. Through this process, EPA worked extensively with stakeholders and the public to reach the regulatory decisions for 4-aminopyridine.

The reregistration program is being conducted under congressionally mandated time frames, and EPA recognizes the need both to make timely decisions and to involve the public. The Agency is issuing the 4-aminopyridine RED for public comment. This comment period is intended to provide an additional opportunity for public input and a mechanism for initiating any necessary amendments to the RED. All comments should be submitted using the methods in **ADDRESSES**, and must be received by EPA on or before the closing date. These comments will become part of the Agency Docket for 4-aminopyridine. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments.

The Agency will carefully consider all comments received by the closing date and will provide a Response to Comments Memorandum in the Docket and regulations.gov. If any comment significantly affects the document, EPA also will publish an amendment to the RED in the **Federal Register**. In the absence of substantive comments requiring changes, the 4-aminopyridine RED will be implemented as it is now presented.

B. What Is the Agency's Authority for Taking this Action?

Section 4(g)(2) of FIFRA, as amended, directs that, after submission of all data concerning a pesticide active ingredient, the Administrator shall determine whether pesticides containing such active ingredient are eligible for reregistration, before calling in product specific data on individual end-use products and either reregistering products or taking other "appropriate regulatory action."

Pyridate; Product Cancellation Order to Terminate Uses of Certain Pesticide Registrations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's order for the cancellation, voluntarily requested by the registrant and accepted by the Agency, of products containing the pesticide pyridate, pursuant to section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This cancellation order follows an April 18, 2007, **Federal Register** Notice of Receipt of Request from the pyridate registrant to voluntarily cancel all of its pyridate section 24(c) product registrations registered under FIFRA. These are the last pyridate products registered for use in the United States. In the April 18, 2007, notice, EPA indicated that it would issue an order implementing the cancellation, unless the Agency received substantive comments within the 180-day comment period that would merit its further review of these requests, or unless the registrant withdrew its request within this period. The Agency received one comment on the notice but it did not merit further review of the request. Further, the registrant did not withdraw the request. Accordingly, EPA hereby issues in this notice a cancellation order granting the requested cancellation to terminate uses. Any distribution, sale, or use of the pyridate products subject to this cancellation order is permitted only in accordance with the terms of this order, including any existing stocks provisions.

DATES: The cancellations are effective November 21, 2007.

FOR FURTHER INFORMATION CONTACT: John W. Pates, Jr., Special Review and Reregistration Division (7508P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; telephone number: (703) 308-

8195; fax number: (703) 308-8005; e-mail address: pates.john@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. How Can I Get Copies of this Document and Other Related Information?

1. *Docket.* EPA has established a docket for this action under docket identification (ID) number EPA-HQ-OPP-2007-0103. Publicly available docket materials are available either in the electronic docket at <http://www.regulations.gov>, or, if only available in hard copy, at the Office of Pesticide Programs (OPP) Regulatory Public Docket in Rm. S-4400, One Potomac Yard (South Bldg.), 2777 S. Crystal Dr., Arlington, VA. The hours of operation of this Docket Facility are from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The Docket Facility telephone number is (703) 305-5805.

2. *Electronic access.* You may access this **Federal Register** document electronically through the EPA Internet under the **Federal Register** listings at <http://www.epa.gov/fedrgstr>.

II. What Action is the Agency Taking?

This notice announces the cancellation to terminate use, as requested by the registrant, of all section 24(c) pyridate products registered under FIFRA. These registrations are listed in sequence by registration number in Table 1 of this unit.

TABLE 1.—PYRIDATE PRODUCT CANCELLATIONS

EPA Registration Number	Product Name
CA010008	Tough 5EC
ID010006	Tough 5EC

TABLE 1.—PYRIDATE PRODUCT CANCELLATIONS—Continued

EPA Registration Number	Product Name
IN010001	Tough 5EC
MT010003	Tough 5EC
ND000007	Tough 5EC
OR010005	Tough 5EC
WA010007	Tough 5EC
WI010005	Tough 5EC

Table 2 of this unit includes the name and address of record for the registrant of the products in Table 1 of this unit.

TABLE 2.—REGISTRANT OF CANCELED PYRIDATE PRODUCTS

EPA Company Number	Company Name and Address
100	Syngenta Crop Protection, Inc., P.O. Box 18300, Greensboro, NC 27419-8300

III. Summary of Public Comments Received and Agency Response to Comments

During the public comment period provided, EPA received one comment in response to the **Federal Register** notice of April 18, 2007 (72 FR 19491) (FRL-8124-4), announcing the Agency's receipt of the request for voluntary cancellation. The comment received was a request for an extension of the Special Local Need label to allow the use of existing stocks of pyridate by mint growers. However, the **Federal Register** notice already specified that mint growers may use the FIFRA 24(c) labels to apply existing stocks of the previously-canceled parent product, Tough EC (EPA Reg. No. 100-880) to mint, until such existing stocks are exhausted. For this reason, the Agency does not believe that the comment submitted during the comment period merits further review or a denial of the request for voluntary cancellation.

IV. Cancellation Order

Pursuant to FIFRA section 6(f), EPA hereby approves the requested cancellation to terminate use of the pyridate FIFRA section 24(c) registrations identified in Table 1. Accordingly, the Agency orders that the pyridate FIFRA 24(c) registrations identified in Table 1 are hereby canceled. Any distribution, sale, or use of existing stocks of the products identified in Table 1 of Unit II. in a

manner inconsistent with any of the Provisions for Disposition of Existing Stocks set forth in Unit VI. will be considered a violation of FIFRA.

V. What Is the Agency's Authority for Taking this Action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, following the public comment period, the Administrator may approve such a request.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment prior to the effective date of the cancellation action. The cancellation order issued in this notice includes the following existing stocks provisions.

The Agency intends to allow persons other than the registrant to continue to use the FIFRA section 24(c) labels to apply existing stocks of the previously-canceled parent section 3 product, Tough 5EC (EPA Reg. No. 100-880), to mint, provided such use is consistent with the section 24(c) labels, until such existing stocks are exhausted. The registrant will not be permitted to sell or distribute the previously-canceled parent section 3 product, Tough 5EC (EPA Reg. No. 100-880), but existing stocks already in the hands of dealers or users may be distributed, sold or used legally until they are exhausted.
