

instant tariff filing, Tennessee indicates its intent to commence charging FT-G shippers separately for the transportation of "swing" volumes to and from storage commencing August 1, 2001. Although Tennessee does not believe that a tariff filing is necessary to bill FT-G shippers in this manner, given the length of time that Tennessee has inadvertently not charged FT-G customers for the transportation of "swing" volumes both into and out of storage, Tennessee believes that it is appropriate to provide formal notice to its customers of its plans via a tariff filing.

Tennessee states that copies of the filing have been mailed to each of Tennessee's customers and the affected state regulatory commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Sections 385.214 or 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed in accordance with Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room. This filing may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance). Comments, protests, and interventions may be filed electronically via the internet in lieu of paper.
