

3. Provide any technical information and/or data you used that support your views.

4. If you estimate potential burden or costs, explain how you arrived at your estimate.

5. Provide specific examples to illustrate your concerns.

6. Offer alternatives.

7. Make sure to submit your comments by the comment period deadline identified.

8. To ensure proper receipt by EPA, identify the appropriate docket ID number in the subject line on the first page of your response. It would also be helpful if you provided the name, date, and **Federal Register** citation related to your comments.

II. Background

A. What Action is the Agency Taking?

EPA is making available the Agency's revised risk assessments, initially issued for comment through a **Federal Register** notice published on August 4, 2004 (69 FR 47141) (FRL-7368-9); responses to comments; and related documents for PCNB. EPA also is soliciting public comment on risk reduction options for PCNB. EPA developed the risk assessments for PCNB as part of its public process for making pesticide reregistration eligibility and tolerance reassessment decisions. Through these programs, EPA is ensuring that pesticides meet current standards under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Federal Food, Drug, and Cosmetic Act (FFDCA), as amended by the Food Quality Protection Act of 1996 (FQPA).

PCNB is a fungicide used to control diseases on a number of field crops, turf, and ornamentals. Use sites include cole crops, green beans, cotton, potatoes, peanuts, lawns, golf courses, and sod farms. PCNB is applied to soil, foliage, and seeds.

EPA is providing an opportunity, through this notice, for interested parties to provide risk management proposals or otherwise comment on risk management for PCNB. Risks of concern associated with the use of PCNB are: Concentrations of PCNB and its metabolites in drinking water which result in dietary risks, risk for residential handlers and post-application risks to children and adults exposed to treated turf, risks to golfers, occupational risk for a large number of scenarios (for both seed treatment and non-seed treatment handlers), and excess ecological risks (particularly for aquatic organisms). The Agency is soliciting information, via targeting specific risks of concern, in effective and practical risk reduction measures.

EPA is applying the principles of public participation to all pesticides undergoing reregistration and tolerance reassessment. The Agency's announcement of its Pesticide Tolerance Reassessment and Reregistration; Public Participation Process, published in the **Federal Register** on May 14, 2004 (69 FR 26819) (FRL-7357-9) explains that in conducting these programs, EPA is tailoring its public participation process to be commensurate with the level of risk, extent of use, complexity of issues, and degree of public concern associated with each pesticide. Due to its uses, risks, and other factors, PCNB is being reviewed through the full six-phase public participation process.

All comments should be submitted using the methods in Unit I. of the **SUPPLEMENTARY INFORMATION**, and must be received by EPA on or before the closing date. Comments and proposals will become part of the Agency Docket for PCNB. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments.

After considering comments received, EPA will develop and issue the PCNB RED.

B. What is the Agency's Authority for Taking this Action?

Section 4(g)(2) of FIFRA as amended directs that, after submission of all data concerning a pesticide active ingredient, "the Administrator shall determine whether pesticides containing such active ingredient are eligible for reregistration," before calling in product specific data on individual end-use products and either reregistering products or taking other "appropriate regulatory action."

Section 408(q) of the FFDCA, 21 U.S.C. 346a(q), requires EPA to review tolerances and exemptions for pesticide residues in effect as of August 2, 1996, to determine whether the tolerance or exemption meets the requirements of section 408(b)(2) or (c)(2) of FFDCA. This review is to be completed by August 3, 2006.

Public Water System Supervision Program Revision for the State of LA

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of tentative approval.

SUMMARY: Notice is hereby given that the State of Louisiana is revising its approved Public Water System Supervision Program. Louisiana has revised its variance and exemption regulation and adopted the interim enhanced surface water treatment regulation, the disinfectants/disinfection by-products regulation, and the lead and copper minor revisions regulation. EPA has determined that these revisions are no less stringent than the corresponding federal regulations. Therefore, EPA intends to approve these program revisions.

DATES: All interested parties may request a public hearing. A request for a public hearing must be submitted by April 1, 2005 to the Regional Administrator at the EPA Region 6 address shown below. Frivolous or insubstantial requests for a hearing may be denied by the Regional Administrator. However, if a substantial request for a public hearing is made by April 1, 2005, a public hearing will be held. If no timely and appropriate request for a hearing is received and the Regional Administrator does not elect to hold a hearing on his own motion, this determination shall become final and effective on April 1, 2005. Any request for a public hearing shall include the following information: The name, address, and telephone number of the individual, organization, or other entity requesting a hearing; a brief statement of the requesting person's interest in the Regional Administrator's determination and a brief statement of the information that the requesting person intends to submit at such hearing; and the signature of the individual making the request, or, if the request is made on behalf of an organization or other entity, the signature of a responsible official of the organization or other entity.

ADDRESSES: All documents relating to this determination are available for inspection between the hours of 8 a.m. and 4:30 p.m., Monday through Friday, at the following offices: Louisiana Department of Health and Hospitals, Engineering Services, Safe Drinking Water Programs, 6867 Bluebonnet Drive, Baton Rouge, LA 70810 and the United States Environmental Protection

Agency, Region 6, Drinking Water Section (6WQ-SD), 1445 Ross Avenue, Suite 1200, Dallas, Texas 75202.

FOR FURTHER INFORMATION CONTACT: David Reazin, EPA Region 6, Drinking Water Section at the Dallas address given above or at telephone (214) 665-7501.

Authority: (Section 1413 of the Safe Drinking Water Act, as amended (1996), and 40 CFR Part 142 of the National Primary Drinking Water Regulations)

Dated: February 18, 2005.

Richard E. Greene,

Regional Administrator, Region 6.
