### Synopsis

State TRS programs should report all complaints made to the state agency, as well as those made to the state's TRS provider. TRS providers that provide interstate TRS, interstate STS, interstate Spanish relay, interstate captioned telephone relay, VRS, and IP Relay are required to submit complaint log summaries. These logs are intended to provide an early warning system to the Commission of possible service quality problems. Additionally, this information allows the Commission to determine whether a state or interstate TRS provider has appropriately addressed consumer complaints and to spot national trends that may lend themselves to coordinated solutions. This information further enables states to learn how other states are resolving complaints. We note that according to the data presented in the state complaint log summary submissions for 2004, approximately sixteen hundred complaints were reported that alleged a violation of one or more of the Commission's mandatory minimum standards for TRS. Over seventy-seven percent of all complaints alleged violations of the operational mandatory minimum standards and stemmed from the interaction between the calling party and the communications assistant (CA). We therefore remind TRS providers and state administrators that their CAs must, among other things, be knowledgeable of TRS procedures, follow customer's instructions, and continue to keep callers informed about the progress of their call.
