SUPPLEMENTARY INFORMATION:

I. Background

On June 10, 2002, the Secretary of Health and Human Services announced the launching of a new effort to streamline Medicare's paperwork requirements for home health nurses and therapists so that they can focus more on providing quality care to their patients.

The action is one of several steps announced to address interim recommendations from the Secretary's Advisory Committee on Regulatory Reform. Secretary Thompson created the panel of consumers, physicians, and other health care professionals to help guide HHS' broader efforts to streamline unnecessarily burdensome or inefficient regulations that interfere with the quality of health care for Americans.

Since 1999, Medicare has required home health agencies to complete the OASIS (Outcome Assessment Information Set) at regular intervals both to ensure Medicare pays appropriately and to assess and improve the quality of care provided by the home health agency. Committee members, however, made several recommendations for streamlining the assessment to achieve those goals more efficiently, allowing home health agencies to spend more resources providing care to their patients.

Acting on the committee's recommendations to date, we have already taken steps to revise the OASIS form and its use, and will begin implementation of the changes. These changes will be described at the OASIS town hall meeting. We are now interested in providing interested parties with the opportunity to propose additional changes to OASIS as part of
