

Role of the Subcommittee: The subcommittee will work with a literature review team to review the evidence on effective strategies to achieve the PAG among older adults (aerobic, muscle-strengthening, balance, multicomponent). The subcommittee will be tasked to evaluate the scientific literature, grade the evidence, and summarize the science related to strategies to increase physical activity among older adults and to identify research gaps. The subcommittee will deliver its findings in a written report to the PCSFN for discussion and deliberation. The federal steering committee will use the report to inform the PAG Midcourse Report. The subcommittee is expected to be engaged throughout calendar year 2022, primarily through video and/or phone meetings.

Nominations for the Subcommittee: HHS will consider nominations, including self-nominations, for individuals qualified to carry out the above-mentioned tasks. Nominees must have an advanced degree and expertise reviewing scientific literature in the fields of physical activity, health promotion/disease prevention, gerontology/aging, public health, built environment/community design, health policy, psychology, and/or implementation science. Nominees must also currently reside in the United States. The following information should be included in the package of material submitted for each individual being nominated for consideration: (1) The name, address, daytime telephone number, and email address of the nominator and the individual being nominated; (2) a letter of nomination that clearly states the name and affiliation of the nominee, the basis for the nomination (*i.e.*, specific attributes which qualify the nominee for service in this capacity), and a statement from the nominee that the nominee is willing to serve on a subcommittee to support development of the PAG Midcourse Report; and (3) a current copy of the nominee's curriculum vitae (CV) no more than 10 pages in length. Inclusion of the following is requested in the CV: (1) Current position, (2) current and/or past grant awards, (3) publications showing breadth and experience in areas of specialization, (4) paid and non-paid board and advisory appointments, and (5) education and occupational history.

All nominations must include the required information. Incomplete nominations will not be processed for consideration. All nomination information should be sent in a single email, with attachments, to

PAGReviews@hhs.gov. All nominations must be submitted by 11:59 p.m. E.T. on December 8, 2021.

Equal opportunity practices regarding acceptance to this committee will be aligned with HHS policies. When possible, every effort will be made to ensure that the committee includes a diverse group of individuals with representation from various geographic locations, racial and ethnic minorities, all genders, and persons with disabilities. Individuals will be selected to represent balanced viewpoints of the scientific evidence, not to represent the viewpoints of any specific group.

Paul Reed,

Deputy Assistant Secretary for Health, RADM, U.S. Public Health Service, Office of Disease Prevention and Health Promotion.
