II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, “Rules of General Applicability to Domestic Licensing of Byproduct Material.” The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on July 22, 2022, 87 FR 43908.

1. *The title of the information collection:* “Rules of General Applicability to Domestic Licensing of Byproduct Material.”

2. *OMB approval number:* 3150–0017.
3. *Type of submission:* Extension.
4. *The form number, if applicable:* Not applicable.

5. *How often the collection is required or requested:* Required reports are collected and evaluated on a continuing basis as events occur. There is a onetime submittal of information to receive a license. Renewal applications are submitted every 15 years. Information submitted in previous applications may be referenced without being resubmitted. In addition, recordkeeping must be performed on an ongoing basis.

6. *Who will be required or asked to respond:* All persons applying for or holding a license to manufacture, produce, transfer, receive, acquire, own, possess, or use radioactive byproduct material.

7. *The estimated number of annual responses:* 144,734 (17,445 NRC Licensee responses [1,049 reporting responses + 2,200 for recordkeepers + 14,196 third-party disclosures] and (127,289 Agreement State Licensee responses [7,658 reporting responses + 16,000 for recordkeepers + 103,631 third-party disclosures]).

8. *The estimated number of annual respondents:* 18,200 (2,200 NRC Licensees and 16,000 Agreement State Licensees).

9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 229,100 hours (113,042 reporting hours + 103,708 recordkeeping hours + 12,350 third party disclosure hours).

10. *Abstract:* 10 CFR part 30 establishes requirements that are applicable to all persons in the United States governing domestic licensing of radioactive byproduct material. The application, reporting and recordkeeping requirements are necessary to permit the NRC to make a determination whether the possession, use, and transfer of byproduct material is in conformance with the Commission’s regulations for protection of the public health and safety.
