

	Period of review
Polyethylene Terephthalate Film, Sheet, and Strip, A-570-924	11/1/2020-10/31/2021
Polyvinyl Alcohol, A-570-879	10/1/2020-9/30/2021
Refillable Stainless Steel Kegs, A-570-093	12/1/2020-11/30/2021

CVD Proceedings

None.

Assessment

Commerce will instruct U.S. Customs and Border Protection (CBP) to assess antidumping and/or countervailing duties on all appropriate entries during the periods of review noted above for each of the listed administrative reviews at rates equal to the cash deposit of estimated antidumping or countervailing duties, as applicable, required at the time of entry, or withdrawal of merchandise from warehouse, for consumption, in accordance with 19 CFR 351.212(c)(1)(i). Commerce intends to issue assessment instructions to CBP no earlier than 35 days after the date of publication of this rescission notice in the **Federal Register** for rescinded administrative reviews of AD/CVD orders on countries other than Canada and Mexico. For rescinded administrative reviews of AD/CVD orders on Canada or Mexico, Commerce intends to issue assessment instructions to CBP no earlier than 41 days after the date of publication of this rescission notice in the **Federal Register**.

Notification to Importers

This notice serves as the only reminder to importers of merchandise subject to AD orders of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties and/or countervailing duties prior to liquidation of the relevant entries during the review period. Failure to comply with this requirement could result in the presumption that reimbursement of antidumping duties and/or countervailing duties occurred and the subsequent assessment of doubled antidumping duties.

Notification Regarding Administrative Protective Order

This notice also serves as the only reminder to parties subject to administrative protective orders (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in these

segments of these proceedings. Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

Notification to Interested Parties

This notice is issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Tariff Act of 1930, as amended, and 19 CFR 351.213(d)(4).

Dated: April 19, 2022.

James Maeder,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Final Management Plan for the Delaware National Estuarine Research Reserve

AGENCY: Office for Coastal Management, National Ocean Service, National Oceanic and Atmospheric Administration, U.S. Department of Commerce.

ACTION: Notice of approval for the revised management plan for the Delaware National Estuarine Research Reserve.

SUMMARY: Notice is hereby given that the Office for Coastal Management, National Ocean Service, National Oceanic and Atmospheric Administration, U.S. Department of Commerce approves the revised management plan for the Delaware National Estuarine Research Reserve. In accordance with applicable Federal regulations, the Delaware Department of Natural Resources and Environmental Control revised the reserve's management plan, which replaces the plan previously approved in 2013.

ADDRESSES: The approved management plan can be downloaded or viewed at <https://documents.dnrec.delaware.gov/coastal/DNERR/2022-DNERR-Management-Plan.pdf>. The document is also available by sending a written request to the point of contact identified

below (see **FOR FURTHER INFORMATION CONTACT**).

FOR FURTHER INFORMATION CONTACT: Jean R. Brodeur, jean.brodeur@noaa.gov, 854-900-2575.

SUPPLEMENTARY INFORMATION: Pursuant to 15 CFR 921.33(c), a state must revise the management plan for its research reserve at least every five years. Changes to a reserve's management plan may be made only after receiving written approval from the National Oceanic and Atmospheric Administration (NOAA). NOAA approves changes to management plans via notice in the **Federal Register**. On December 16, 2021, NOAA issued a notice in the **Federal Register** announcing a thirty-day public comment period for the proposed revision of the Delaware National Estuarine Research Reserve management plan (86 FR 71421). No comments were received.

The management plan outlines the reserve's strategic goals and objectives; administrative structure; programs for conducting research and monitoring, education, and training; resource protection, restoration, and manipulation plans; public access and visitor use plans; consideration for future land acquisition; and facility development to support reserve operations. Since 2013, this research reserve has had an important impact on the local area and its communities. The reserve's training program held 53 trainings, workshops or conferences with 27,851 contact hours with local constituents. The education program had 32,466 contact hours with 11,722 K-12 students and 23,599 public participants. Reserve volunteers donated 20,739 hours of time producing the full-time employee equivalent of 10.5 years of work. Some of those volunteer hours were spent recording 1,784,923 spawning horseshoe crabs on the three beaches that the reserve monitors. Research and monitoring efforts produced 15 peer-reviewed publications that used this reserve's infrastructure and data. The mini-grant opportunity, available through their research and monitoring program, distributed \$183,766 of funding to local, Delaware-based researchers, many of which were early career faculty. Seventy-six acres of land within this reserve's boundary have been enhanced

through reforestation and other restoration efforts.

With the approval of this revised management plan, the boundary will be amended to incorporate an additional six parcels—all found within the priority acquisition area identified in the 2013 revision of the plan—increasing the total acreage to 6,364 acres. These parcels include lands that enhance and contribute to the ecological protection within the Blackbird Creek watershed. The “McKinley” property at 531 Union Church Road is 67.4 acres in size and includes a mix of native hardwoods and coastal plain ponds (Delmarva Bays). At 0 Taylors Bridge Road, the 32-acre “Unruh” property includes a wooded tributary buffer and agricultural lands. Three parcels known as the “Norris” property, totaling 42.6 acres at Union Church Road, were acquired to improve wildlife corridor habitat and include forest and agriculture lands. Additionally, an inholding property known as “Manwaring” at 789 Blackbird Landing Road, 16.3 acres in size, was acquired. More details on these parcels and the boundary change may be found in the revised management plan.

In addition to continuing the tradition of robust local community education, training and research and stewardship programs, the Delaware National Estuarine Research Reserve intends, in this next management planning period, to focus on creating demonstration areas that can be used to model best management practices for local landowners; fostering the next generation of coastal professionals and conservation stewards; engaging land managers in conversations based on watershed scale conservation; and connecting with the Delaware community in a meaningful and inclusive manner to identify their needs as the stakeholders of this research reserve. The revised management plan will serve as the guiding document for this 6,364-acre research reserve for the next five years.

NOAA reviewed the environmental impacts of the revised management plan and determined that this action is categorically-excluded from further analysis under the National Environmental Policy Act, consistent with NOAA Administrative Order 216–6.

Authority: 16 U.S.C. 1451 *et seq.*; 15 CFR 921.33.

Keelin S. Kuipers,

Deputy Director, Office for Coastal Management, National Ocean Service, National Oceanic and Atmospheric Administration.

North Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of web conference.

SUMMARY: The Center of Independent Experts (CIE) review of the Bering Sea and Aleutian Islands (BSAI) Pacific ocean perch stock assessment will be held May 9, 2022 through May 13, 2022.

DATES: The meeting will be held on Monday, May 9, 2022 through Friday, May 13, 2022, from 10 a.m. to 5 p.m., Pacific Time.

ADDRESSES: The meeting will be a web conference. Join online through the link at https://apps-afsc.fisheries.noaa.gov/Plan_Team/2022_pop_cie/.

Council address: Alaska Fishery Science Center, 7600 Sand Point Way, Seattle, WA 98115; telephone: (206) 526–4000.

FOR FURTHER INFORMATION CONTACT: Paul Spencer, Alaska Fishery Science Center staff; phone: (206) 526–4000; email: paul.spencer@noaa.gov.

SUPPLEMENTARY INFORMATION:

Agenda

Monday, May 9, 2022, through Friday, May 13, 2022

The CIE will review the Bering Sea Aleutian Islands Pacific Ocean perch stock assessment input data and model. The agenda is subject to change, and the latest version will be posted at https://apps-afsc.fisheries.noaa.gov/Plan_Team/2022_pop_cie/ prior to the meeting, along with meeting materials.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: April 19, 2022.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

NOAA Fisheries Draft Climate Science Regional Action Plans (2022–2024)

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of availability of the NOAA Fisheries Draft Climate Science Regional Action Plans (2022–2024); request for comments.

SUMMARY: We, NMFS, announce the availability of Draft Climate Science Regional Action Plans designed to increase the production, delivery and use of climate-related information to fulfill our stewardship mission for the Nation’s valuable living marine resources. We are soliciting review and comment from the public and all interested parties, and will consider all substantive comments received during the review period before publishing final Plans. Comments are invited on: (a) The clarity of the goals and activities in the draft Plans, (b) how to strengthen the draft Plans and activities; (c) what additional goals and activities need to be addressed. Comments submitted in response to this notice will be provided to the Regional Action Plan Teams for consideration in development of the final Plans.

DATES: Comments on the Draft Climate Science Regional Action Plans must be received by June 2, 2022.

ADDRESSES: To review the draft regional plans, visit: <https://www.fisheries.noaa.gov/national/climate/climate-science-strategy-regional-action-plans>.

Comments may be submitted on the NOAA Fisheries Draft Climate Science Regional Action Plans, identified by NOAA–NMFS–2022–0007 by any of the following methods:

- **Electronic Submissions:** Submit all electronic public comments via the Federal eRulemaking Portal. Go to www.regulations.gov and enter NOAA–NMFS–2022–0007 in the Search box. Click the “Comment” icon and complete the required fields, and enter or attach your comments.

- **Mail:** Submit written comments to Roger Griffis, NMFS/Office of Science and Technology, 1315 East-West Highway, Silver Spring, MD 20910. Include on the envelope the following identifier “Draft Climate Science Regional Action Plans Comments.”

Instructions: Comments sent by any other method, to any other address or
