SUPPLEMENTARY INFORMATION:

I. Abstract

The Marine Mammal Protection Act (16 U.S.C. 1361 *et seq.*; MMPA), Fur Seal Act (16 U.S.C. 1151 *et seq.*; FSA), and Endangered Species Act (16 U.S.C. 1531 *et seq.*; ESA) prohibit certain actions affecting marine mammals and endangered and threatened species, with exceptions. Permits can be

obtained for scientific research and enhancing the survival or recovery of a species or stock of marine mammals or threatened or endangered species; commercial and educational photography of marine mammals; and import and capture of marine mammals for public display. Letters of Confirmation can be obtained under the General Authorization (GA) for scientific research that involves minimal disturbance to marine mammals. The applicants desiring a permit or authorization must provide certain information for the National Marine Fisheries Service (NMFS) to determine whether a proposed activity is consistent with the purposes, policies, and requirements of the applicable laws, and that the activity is in the best interest of the protected species and the public. Permit holders and authorized researchers must report on activities conducted to ensure compliance with permit conditions and protection of the animals. Holders of captive marine mammals must report changes to their animal inventory.

This information collection applies to protected species for which NMFS is responsible, including the marine mammal species of cetaceans (whales, dolphins and porpoises) and pinnipeds (seals and sea lions) and threatened and endangered species including sea turtles (in water), white abalone, black abalone, smalltooth sawfish, shortnose sturgeon, and elkhorn and staghorn corals. The regulations implementing permit, authorization, and inventory requirements under the MMPA and FSA are at 50 CFR part 216; the regulations for permit requirements under the ESA are at 50 CFR part 222.

Respondents will be researchers, photographers, and other members of the public seeking exceptions to prohibited activities on marine mammals and endangered and threatened species through permits or authorizations for purposes described above; and holders of marine mammals in captivity.

II. Method of Collection

Inventory materials and reports are paper forms.
