AGENCY: Office of the Secretary, HHS.

ACTION: Notice.

SUMMARY: In compliance with section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Office of the Secretary (OS), Department of Health and Human Services, announces plans

to submit a new Information Collection Request (ICR), described below, to the Office of Management and Budget (OMB). Prior to submitting the ICR to OMB, OS seeks comments from the public regarding the burden estimate below or any other aspect of the ICR.

DATES: Comments on the ICR must be received on or before February 7, 2017.

ADDRESSES: Submit your comments to *Information.CollectionClearance@hhs.gov* or by calling (202) 690–5683.

SUPPLEMENTARY INFORMATION: When submitting comments or requesting information, please include the document identifier OS–0990–New–60D for reference.

Information Collection Request Title: A Client-Centered Performance Measure for Contraceptive Services.

Abstract: The Office of the Assistant Secretary for Health/Office of Population Affairs is seeking an approval by the Office of Management and Budget on a new information collection. We propose to evaluate a scale previously developed by our collaborators at the University of California San Francisco (UCSF)—the 11-item Interpersonal Quality of Family Planning Care (IQFP) scale—among 3,000 female family planning clients. Initially informed by qualitative work around women's preferences for contraceptive counseling, the IQFP scale has already been shown to be a valid

and reliable scale in research settings but its use as a performance measure hasn't yet been evaluated. Family planning providers will also complete a short survey about provider characteristics (approximately 80 providers) and clinic demographics (approximately 10 clinics).

Need and Proposed Use of the Information: The proposed use of the information to be collected is to develop a patient-reported outcome performance measure (PRO–PM) on contraceptive counseling and assess its validity, reliability, feasibility, usability, and use. If we find that this measure has adequately met these criteria, UCSF and the Office of Population Affairs (OPA) will prepare it for submission to the National Quality Forum (NQF) for use in a variety of clinical settings where family planning care is provided. Measurement of the quality of contraceptive counseling can be used as part of quality improvement activities to increase awareness and use of client-centered counseling approaches. By improving client-centered services, women can choose the contraceptive method that works best for them, which can lead to reductions in rates of unintended pregnancy and other adverse reproductive outcomes.

Likely Respondents: Family planning providers and their patients.

TOTAL ESTIMATED ANNUALIZED BURDEN—HOURS

Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total burden hours
Survey for provider characteristics	27	1	5/60	2.25
Survey for clinic characteristics	3	1	20/60	1
Contraceptive counseling survey	1,000	1	10/60	166.67
Total				169.92

OS specifically requests comments on (1) the necessity and utility of the proposed information collection for the proper performance of the agency's functions, (2) the accuracy of the estimated burden, (3) ways to enhance the quality, utility, and clarity of the information to be collected, and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

Proposed Project: Pregnancy Assistance Fund (PAF) Performance Measures Collection Abstract: The Office of Adolescent Health (OAH), U.S. Department of Health and Human Services (HHS), is requesting an extension of a currently approved information collection request by OMB. The purpose of the renewal is to extend the period of collection through March 31, 2018 to complete the collection of the Pregnancy Assistance Fund (PAF) Performance Measures from grantees

funded in August 2013, and to allow for data collection from 3 new PAF grantees funded in July 2015, increasing the number of respondents from 17 to 20. There are no changes to the data to be collected.

Need and Proposed Use of the Information: OAH will use the performance data to inform planning and resource allocation decisions; identify technical assistance needs; and provide Congress, OMB, and the general public with information about the individuals who participate in PAF-funded activities and the services they receive.

Likely Respondents: 20 PAF grantees (States and Tribes).

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose, or provide the information requested. This includes the time needed to review instructions; to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information; to search data sources; to complete and review the collection of information; and to transmit or otherwise disclose the information. The table below summarizes the total annual burden hours estimated for this ICR.
