

DEPARTMENT OF DEFENSE**Department of the Army, Corps of Engineers****33 CFR Chapter II****USACE's Plan for Retrospective Review Under E.O. 13563**

AGENCY: U.S. Army Corps of Engineers, DoD.

ACTION: Extension of comment period.

SUMMARY: On November 16, 2011, the U.S. Army Corps of Engineers (USACE) issued a Notice of Intent and Request for Comments on its plan to retrospectively review its Regulations implementing the USACE Regulatory Program at 33 CFR 320–332 and 334 in accordance with Executive Order 13563, “Improving Regulation and Regulatory Review” (E.O.), issued on January 18, 2011, directs federal agencies to review existing significant regulations and identify those that can be made more effective or less burdensome in achieving regulatory objectives. The Regulations are essential for implementation of the Regulatory mission; thus, USACE believes they are a significant rule warranting review pursuant to E.O. 13563. The E.O. further directs each agency to periodically review its existing significant regulations to determine whether any such regulations should be modified, streamlined, expanded, or repealed so as to make the agency’s regulatory program more effective or less burdensome in achieving the regulatory objectives. The original comment period ended on January 17, 2012. As a result of the request for time extensions, we have extended the comment period 45 days.

DATES: Written comments must be submitted on or before March 2, 2012.

ADDRESSES: You may submit comments, identified by docket number COE–2011–0028, by any of the following methods:

Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments.

Email: regulatory.review@usace.army.mil. Include the docket number, COE–2011–0028, in the subject line of the message.

Mail: U.S. Army Corps of Engineers, ATTN: CECW–CO–R (Ms. Amy S. Klein), 441 G Street NW., Washington, DC 20314–1000.

Hand Delivery/Courier: Due to security requirements, we cannot receive comments by hand delivery or courier.

Instructions: Instructions for submitting comments are provided in the original notice published on November 16, 2011 (76 FR 70927).

Docket: For access to the docket to read background documents or comments received, go to www.regulations.gov. All documents in the docket are listed. Although listed in the index, some information is not publicly available, such as CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form.

FOR FURTHER INFORMATION CONTACT: Ms. Amy S. Klein, Headquarters, U.S. Army Corps of Engineers, Operations and Regulatory Community of Practice, Washington, DC 20314–1000, by phone at (202) 761–4559 or by email at regulatory.review@usace.army.mil.

SUPPLEMENTARY INFORMATION: Please refer to the original notice published on November 16, 2011 (76 FR 70927) for additional details. The original notice solicits comments regarding eight questions. These questions are not intended to be exhaustive, and respondents are encouraged to raise additional issues or make suggestions unrelated to these questions.

Dated: January 17, 2012.

Richard C. Lockwood,

Acting Chief, Operations and Regulatory Directorate of Civil Works.

Approval and Promulgation of Air Quality Implementation Plans; Delaware; Amendments to the Control of Nitrogen Oxides Emissions From Industrial Boilers and Process Heaters at Petroleum Refineries

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve a State Implementation Plan (SIP) revision submitted by the State of Delaware. This SIP revision amends Delaware’s regulation that establishes controls for nitrogen oxides (NO_x) emissions from industrial boilers and process heaters at petroleum refineries

by including a NO_x emission limit for the fluid catalytic cracking unit carbon monoxide (CO) boiler at the Delaware City Refinery and providing for a facility-wide NO_x emission cap compliance alternative. This SIP revision also includes a demonstration that these amendments to the existing Delaware regulation will not interfere with the attainment or maintenance of any National Ambient Air Quality Standards (NAAQS) or any other applicable requirement of the Clean Air Act (CAA). This action is being taken under the CAA.

DATES: Written comments must be received on or before February 22, 2012.

ADDRESSES: Submit your comments, identified by Docket ID Number EPA–R03–OAR–2011–0642 by one of the following methods:

A. *www.regulations.gov.* Follow the on-line instructions for submitting comments.

B. *Email:* fernandez.cristina@epa.gov.

C. *Mail:* EPA–R03–OAR–2011–0642, Cristina Fernandez, Associate Director, Office of Air Program Planning, Mailcode 3AP30, U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, Pennsylvania 19103.

D. *Hand Delivery:* At the previously-listed EPA Region III address. Such deliveries are only accepted during the Docket’s normal hours of operation, and special arrangements should be made for deliveries of boxed information.

Instructions: Direct your comments to Docket ID No. EPA–R03–OAR–2011–0642. EPA’s policy is that all comments received will be included in the public docket without change, and may be made available online at www.regulations.gov, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through www.regulations.gov or email. The www.regulations.gov Web site is an “anonymous access” system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an email comment directly to EPA without going through www.regulations.gov, your email address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact

information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses.

Docket: All documents in the electronic docket are listed in the www.regulations.gov index. Although listed in the index, some information is not publicly available, i.e., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically in www.regulations.gov or in hard copy during normal business hours at the Air Protection Division, U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, Pennsylvania 19103. Copies of the State submittal are available at the Delaware Department of Natural Resources and Environmental Control, 89 Kings Highway, Dover, Delaware 19903.

SUPPLEMENTARY INFORMATION:

Throughout this document, whenever “we,” “us,” or “our” is used, we mean EPA.

I. Background

On June 17, 2011, the Delaware Department of Natural Resources and Environmental Control (DNREC) submitted a revision to its SIP to amend Regulation No. 1142, Section 2.0—Control of Nitrogen Oxides Emissions from Industrial Boilers and Process Heaters at Petroleum Refineries. Delaware first promulgated Section 2.0 of Regulation No. 1142 on July of 2007 and subsequently revised it in 2009, as a result of a settlement agreement between DNREC and the Premcor Refining Group, Inc. (Premcor). On November 17, 2009, DNREC submitted Section 2.0 of Regulation No. 1142 as a SIP revision and on June 6, 2010 (75 FR 31711), EPA approved it into the Delaware SIP.

Furthermore, in 2009, the operations at the Delaware City Refinery ceased and in 2010, the refinery ownership changed from Premcor to the Delaware City Refining Company, LLC (DCRC). On May 31, 2010, DNREC and DCRC reached an agreement on the Delaware

City Refinery’s acquisition, restart, and operation. One element of that agreement was to revise Section 2.0 Regulation No. 1142 to provide for a facility-wide NO_x emission cap compliance alternative. This SIP revision pertains to the amendments to Section 2.0 of Regulation No. 1142 as a result of DNREC and DCRC’s agreement.

II. Summary of SIP Revision

Delaware’s SIP revision establishes controls for NO_x emissions from industrial boilers and process heaters at petroleum refineries. This SIP revision includes a NO_x emissions limit for the fluid catalytic cracking unit CO boiler (Unit 23–H–3) and provides for, as an option, compliance with a facility-wide NO_x cap as an alternative to unit specific NO_x emission limits. The initial facility-wide cap is being established at the level of Premcor’s actual 2008 NO_x emissions (i.e., 2,525 tons per year (tpy)) and will decline in two step decreases, as follows: (1) 2,525 tpy, evaluated over each 12 consecutive month rolling period, for any 12 month rolling period ending on or before January 2014; (2) 2,225 tpy, evaluated over each 12 consecutive month rolling period, commencing with the 12 month rolling period beginning on December 31, 2013 and ending on December 31, 2014; and (3) 1,650 tpy, evaluated over each 12 consecutive month rolling period, commencing with the 12 month rolling period beginning on December 31, 2014 and ending on December 31, 2015. Under the revised Section 2.0 of Regulation No. 1142, either all of the unit specific NO_x emission limits apply or the facility-wide cap applies at all times. In addition, this SIP revision also includes a demonstration that these amendments to the existing Delaware regulation will not interfere with the attainment or maintenance of any NAAQS or any other applicable requirement of the CAA. Additional technical support regarding this regulation can be found in the technical support document (TSD) available online at www.regulations.gov, Docket ID Number EPA–R03–OAR–2011–0642.

III. Proposed Action

EPA’s review of this material indicates that the amendments to Section 2.0 of Regulation No. 1142 will not affect the attainment and maintenance of any of the NAAQS. EPA is proposing to approve the Delaware SIP revision, submitted on June 17, 2011, amending Regulation No. 1142, Section 2.0 that includes a NO_x emissions limit for the fluid catalytic cracking unit CO boiler at the Delaware City Refinery and provides for, as an

option, compliance with a facility-wide NO_x cap as an alternative to unit specific NO_x emission limits. EPA is soliciting public comments on the issues discussed in this document. These comments will be considered before taking final action.

IV. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the CAA and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA’s role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely proposes to approve state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this proposed action:

- Is not a “significant regulatory action” subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
 - Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
 - Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
 - Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
 - Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
 - Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
 - Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
 - Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and
 - Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).
- In addition, this proposed rule, pertaining to the control of NO_x

emissions from industrial boilers and process heaters at petroleum refineries in Delaware, does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Intergovernmental relations, Nitrogen dioxide, Ozone, Particulate matter, Reporting and recordkeeping requirements.

Authority: 42 U.S.C. 7401 *et seq.*

Dated: January 3, 2012.

W.C. Early,

Approval and Promulgation of Implementation Plans; Tennessee; 110(a)(1) and (2) Infrastructure Requirements for the 1997 8-Hour Ozone National Ambient Air Quality Standards

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve the state implementation plan (SIP) submission, submitted by the State of Tennessee, through the Tennessee Department of Environment and Conservation (TDEC), to demonstrate that the State meets the requirements of sections 110(a)(1) and (2) with respect to sections 110(a)(2)(C) and (J), of the Clean Air Act (CAA or Act) for the 1997 8-hour ozone national ambient air quality standards (NAAQS). Section 110(a) of the CAA requires that each state adopt and submit a SIP for the implementation, maintenance, and enforcement of each NAAQS promulgated by the EPA, which is commonly referred to as an "infrastructure" SIP. TDEC certified that the Tennessee SIP contains provisions that ensure the 1997 8-hour ozone NAAQS are implemented, enforced, and maintained in Tennessee (hereafter referred to as "infrastructure submission"). Tennessee's

infrastructure submission, provided to EPA on December 14, 2007, and clarified in a subsequent May 28, 2009, submission, addressed the required infrastructure elements for the 1997 8-hour ozone NAAQS, however the subject of this notice is limited to infrastructure elements 110(a)(2)(C) and (J). All other applicable Tennessee infrastructure elements will be addressed in a separate rulemaking.

DATES: Written comments must be received on or before February 22, 2012.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-R04-OAR-2011-0353, by one of the following methods:

1. *www.regulations.gov:* Follow the on-line instructions for submitting comments.

2. *Email:* benjamin.lynorae@epa.gov.

3. *Fax:* (404) 562-9019.

4. *Mail:* "EPA-R04-OAR-2011-0353," Regulatory Development Section, Air Planning Branch, Air, Pesticides and Toxics Management Division, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street SW., Atlanta, Georgia 30303-8960.

5. *Hand Delivery or Courier:* Lynorae Benjamin, Regulatory Development Section, Air Planning Branch, Air, Pesticides and Toxics Management Division, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street SW., Atlanta, Georgia 30303-8960. Such deliveries are only accepted during the Regional Office's normal hours of operation. The Regional Office's official hours of business are Monday through Friday, 8:30 to 4:30, excluding federal holidays.

Instructions: Direct your comments to Docket ID No. EPA-R04-OAR-2011-0353. EPA's policy is that all comments received will be included in the public docket without change and may be made available online at www.regulations.gov, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit through www.regulations.gov or email, information that you consider to be CBI or otherwise protected. The www.regulations.gov Web site is an "anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an email comment directly to EPA without going through www.regulations.gov, your email address will be automatically captured and included as part of the comment

that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses. For additional information about EPA's public docket visit the EPA Docket Center homepage at <http://www.epa.gov/epahome/dockets.htm>.

Docket: All documents in the electronic docket are listed in the www.regulations.gov index. Although listed in the index, some information is not publicly available, *i.e.*, CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically in www.regulations.gov or in hard copy at the Regulatory Development Section, Air Planning Branch, Air, Pesticides and Toxics Management Division, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street SW., Atlanta, Georgia 30303-8960. EPA requests that if at all possible, you contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to schedule your inspection. The Regional Office's official hours of business are Monday through Friday, 8:30 to 4:30, excluding federal holidays.

FOR FURTHER INFORMATION CONTACT: Nacosta C. Ward, Regulatory Development Section, Air Planning Branch, Air, Pesticides and Toxics Management Division, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street SW., Atlanta, Georgia 30303-8960. The telephone number is (404) 562-9140. Ms. Ward can be reached via electronic mail at ward.nacosta@epa.gov.
