

partially cooked meat and poultry products since 1994 (59 FR 7217).

Need and Use of the Information: FSIS will collect information using focus groups to test new labels for safe handling of raw and partially cooked meat and poultry products. In Phase 1, new label designs will initially be tested in consumer focus groups to obtain qualitative feedback on the labels, and the findings will be used to refine the label design and messaging. FSIS is requesting approval for a new information collection to conduct Phase 1, consumer focus groups. If the information was not collected or collected less frequently it would reduce the effectiveness of the meat and poultry inspection program.
