

\$8 million to \$41.5 million. As of August 8, 2020, the Health Center Program provides grant funding under section 330(e) of the PHS Act to 1,310 organizations to provide health care to medically underserved communities. HHS has determined, and the Secretary certifies, that this NPRM would not have a significant impact on the operations of a substantial number of small health centers; therefore, we are not preparing an analysis of impact for purposes of the RFA. HHS estimates the economic impact on small entities as a result of rescinding the “Implementation of Executive Order on Access to Affordable Life-Saving Medications” final rule would be minimal. HHS welcomes comments concerning the economic impact of this NPRM on health centers.

Unfunded Mandates Reform Act

Section 202(a) of the Unfunded Mandates Reform Act of 1995 requires that agencies prepare a written statement, which includes an assessment of anticipated costs and benefits, before proposing “any rule that includes any Federal mandate that may result in the expenditure by State, local, and Tribal governments, in the aggregate, or by the private sector, of \$100 million or more (adjusted annually for inflation) in any one year.” In 2019, that threshold level was approximately \$164 million. HHS does not expect this NPRM to exceed the threshold.

Executive Order 13132—Federalism

HHS has reviewed this NPRM in accordance with Executive Order 13132 regarding federalism, and has determined that it does not have “federalism implications.” This NPRM would not “have substantial direct effects on the States, or on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government.” This NPRM would not adversely affect the following family elements: Family safety, family stability, marital commitment; parental rights in the education, nurture, and supervision of their children; family functioning, disposable income or poverty; or the behavior and personal responsibility of youth, as determined under section 654(c) of the Treasury and General Government Appropriations Act of 1999.

Paperwork Reduction Act of 1995

The Paperwork Reduction Act of 1995 (44 U.S.C. 3507(d)) requires that OMB approve all collections of information by a federal agency from the public

before they can be implemented. This NPRM is projected to have no impact on current reporting and recordkeeping burden for health centers. This NPRM would result in no new reporting burdens. Comments are welcome on the accuracy of this statement.

ADDRESSES: Federal Communications Commission, Office of the Secretary, 45 L Street NE, Washington, DC 20554. In

addition to filing comments with the FCC, interested parties should serve counsel for the Petitioner as follows: Daniel Kirkpatrick, Esq., Baker & Hostetler, LLP, 1050 Connecticut Avenue NW, Washington, DC 20036.

FOR FURTHER INFORMATION CONTACT:

SUPPLEMENTARY INFORMATION: In support of its channel substitution request, the Petitioner states that the Commission has recognized that VHF channels have certain characteristics that pose challenges for their use in providing digital television service, including propagation characteristics that allow undesired signals and noise to be receivable at relatively far distances and nearby electrical devices to cause interference. According to the Petitioner, it has received many complaints from viewers unable to receive a reliable signal on channel 13. In addition, the Petitioner demonstrated that its proposal would result in a loss area of 460.9 square kilometers, containing only five people who will continue to receive service from two other full power television stations.
