2. Request for Accommodation in Communication Method—0960-0777. SSA allows disabled or impaired Social Security applicants, beneficiaries, recipients, and representative payees to choose one of seven alternative methods of communication they want SSA to use when we send them benefit notices and other related communications. The seven alternative methods we offer are: (1) standard print notice by first-class mail; (2) standard print mail with a follow-up telephone call; (3) certified mail; (4) Braille; (5) Microsoft Word file on data CD; (6) large print (18-point font); or (7) audio CD. Respondents who want to receive notices from SSA through a communication method other

than the seven methods listed above must explain their request to us. Those respondents use our iAccommodate Intranet or mySNO internet screens, or the paper Form SSA-9000-F6 to: (1) describe the type of accommodation they want from SSA; (2) disclose their condition necessitating the need for a different type of accommodation; and (3) explain why none of the seven methods described above are sufficient for their needs. SSA uses our internet and Intranet screens or Form SSA-9000-F6 to determine, based on applicable law and regulation, whether to grant the respondents' requests for an accommodation based on their impairment or disability. SSA collects

this information electronically through either an in-person telephone interview during which the SSA employee keys in the information on our iAccommodate Intranet screens, or through the mySNO internet screens which respondents may complete for themselves using the application available through their mySSA accounts. The respondents are disabled or impaired Social Security or SSI applicants, beneficiaries, recipients, and representative payees who ask SSA to send notices and other communications in an alternative method besides the seven modalities we currently offer.
