

under the Office of the Commissioner receives the revenues and makes the payments for certain common expenses, including each club's contribution to the Plan. In support of the waiver request, the requester asserts that: "The Plan is funded directly from Revenues which are paid from the Central Fund directly to the Plan without passing through the hands of any of the clubs. Therefore, the Plan enjoys a substantial degree of security with respect to contributions on behalf of the clubs. A change in ownership of a club does not affect the obligation of the Central Fund to fund the Plan out of the Revenue. As such, approval of this exemption request would not significantly increase the risk of financial loss to the Plan."

Based on the facts of this case and the representations and statements made in connection with the request for an exemption, the PBGC has determined that an exemption from the bond/escrow requirement is warranted, in that it would more effectively carry out the purposes of Title IV of ERISA and would not significantly increase the risk of financial loss to the Plan. Therefore, the PBGC hereby grants the request for an exemption for the bond/escrow requirement. The granting of an exemption or variance from the bond/escrow requirement of section 4204(a)(1)(B) does not constitute a finding by the PBGC that the transaction satisfies the other requirements of section 4204(a)(1).

The determination of whether the transaction satisfies such other requirements is a determination to be made by the Plan sponsor.

Issued at Washington, DC, on this 30th day of March, 2007.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, CBOE included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. CBOE has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

Exchange Rule 3.9, entitled "Application Procedures and Approval or Disapproval," outlines, among other things, the application procedures for an individual who desires to become a member of the Exchange. Paragraph (g) of Exchange Rule 3.9 currently requires any person applying to the Exchange to (i) have completed the Exchange's Member Orientation Program ("Orientation Program") and (ii) passed an Exchange Trading Member Qualification Exam ("Qualification Exam"). However, a person who has completed the Orientation Program and taken and passed the Qualification Exam but does not possess an authorized trading function for more than one year must again complete the Orientation Program and re-pass the Qualification Exam.

This filing proposes to amend CBOE's rules to provide that PAR Officials and Order Book Officials, as described in CBOE's rules and discussed below, as well as others acting in a similar capacity (*i.e.*, an Exchange trading floor capacity), shall be included in the rule, in addition to those who possess an authorized trading function, since both functions are similar.

On November 18, 2005, the Commission approved a filing which

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

created a new category of market participant called "PAR Officials."³ The PAR Official was established in response to the elimination of CBOE's rules as applied to Designated Primary Market-Makers ("DPMs") executing orders as agents or Floor Brokers in their allocated option classes. The PAR Official is responsible for operating the PAR workstation trading stations, including handling and executing orders that are routed to the PAR workstation.

Specifically, the PAR Official is an Exchange employee or independent contractor designated by the Exchange to be responsible for (i) operating the PAR workstation; (ii) when applicable, maintaining the customer limit order book for the assigned option classes;⁴ and (iii) effecting proper executions of orders placed with him.

In addition to PAR Officials, the Exchange also employs "Order Book Officials" ("OBOs") whose responsibilities include, among other things, (i) maintaining the book with respect to the classes of options assigned to him, (ii) effecting proper executions of orders placed with him, (iii) displaying bids and offers, and (iv) monitoring the market for the classes of options assigned to him.

The Exchange may employ former members, who previously acted in the capacity of a DPM before the initiation of the PAR Official, to act on behalf of the Exchange in a trading floor capacity. If these PAR Officials and OBOs become members of the Exchange after working for the Exchange in a trading floor capacity for longer than one year, these individuals would have to again complete the Orientation Program and re-pass the Qualification Exam under current CBOE Rule 3.9, since they would have not possessed an authorized trading function for longer than one year.

These PAR Officials and OBOs, while acting in an Exchange trading floor capacity, are ultimately acting in the same capacity as when they were operating in a DPM capacity prior to the initiation of the PAR Official trading floor capacity. Therefore, the Exchange feels that it is appropriate to amend its procedures to allow for the one year period under CBOE Rule 3.9(g) to be applied to not only an individual who has possessed an authorized trading function, but also to an individual who has acted in an Exchange trading floor

capacity, since both functions are similar.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6(b) of the Act,⁵ in general and furthers the objectives of Section 6(b)(5) of the Act,⁶ in particular, in that it should promote just and equitable principles of trade, serve to remove impediments to and perfect the mechanism of a free and open market and a national market system and protect investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

This proposed rule change does not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding, or (ii) as to which CBOE consents, the Commission will:

(A) By order approve such proposed rule change, or

(B) institute proceedings to determine whether the proposed rule change should be disapproved.
