

accounts. Through these accounts, SAMHSA customers are able to access their order histories and save their shipping addresses. During the website registration process, SAMHSA will also ask customers to provide optional demographic information that helps SAMHSA to evaluate the use and distribution of its publications and improve services to the public.

SAMHSA is employing a web-based form for information collection to avoid

duplication and unnecessary burden on customers who register for an account. Customer information is submitted electronically via web forms on the *samhsa.gov* domain. Customers can submit the web forms at their leisure, or call SAMHSA's toll-free Call Center and an information specialist will submit the forms on their behalf. The electronic collection of information reduces the burden on the respondent and streamlines the data-capturing process.

The following revisions were made to the SAMHSA Publications and Digital Products website Registration Survey:

- Revision of the SAMHSA Publications website Registration Survey Questions.
- Addition of a SAMHSA Main Site Survey version.
- Addition of a SAMHSA Store Survey version.

SAMHSA estimates the burden of this information collection as follows:

TABLE 1—ESTIMATED ANNUAL REPORTING BURDEN

	Number of respondents	Annual frequency per response	Total annual responses	Hours per response	Total hours
Website Registration Survey	21,082	1	21,082	.033 (2 min.) ..	696

Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Proposed Collection; Comment Request

In compliance with Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 concerning opportunity for public comment on proposed collections of information, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the information collection plans, call the SAMHSA Reports Clearance Officer on (240) 276–0361.

Comments are invited on: (a) whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the

information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: SAMHSA SOAR Web-Based Data Form (OMB No. 0930–0329)—Revision

In 2009 the SAMHSA created a Technical Assistance Center to assist in the implementation of the Supplemental Security Income (SSI)/Social Security Disability Insurance (SSDI) Outreach, Access, and Recovery (SOAR) effort in all states. The primary objective of SOAR is to improve the allowance rate for the Social Security Administration's (SSA) disability benefits for people who are experiencing or at risk of homelessness, and who have serious mental illnesses.

During the SOAR training, the importance of keeping track of SSI/SSDI applications through the process is stressed. In response to requests from states implementing SOAR, the Technical Assistance Center under SAMHSA's direction developed a web-based data form that case workers can use to track the progress of submitted applications, including decisions received from SSA either on initial application or on appeal. This password-protected web-based data form is hosted on the SOAR Online Application Tracking (OAT) website (<https://soartrack.samhsa.gov>). Use of this form is completely voluntary.

There are two parts to the SOAR Web-based Data Form. Part I of the SOAR Web-based Data Form is intended for SOAR-trained case workers to enter the outcomes of SOAR-assisted SSI/SSDI applications. Part II of the SOAR Web-based Data Form includes two sections

reserved for SOAR State Team Leads to report annually. The first section of Part II collects quantitative summary data from states that do not track SOAR-assisted SSI/SSDI applications using the SOAR Web-based Data Form Part I. The second section of Part II collects qualitative (open-ended) questions on annual SOAR accomplishments, identified challenges, and collaborations.

Data from Part I of the SOAR Web-based Data Form can be compiled into reports on decision results and the use of SOAR critical components, such as the SSA–1696 Appointment of Representative, which allows SSA to communicate directly with the case worker assisting with the application. These reports will be reviewed by agency directors, SOAR state-level leads, and the SAMHSA SOAR Technical Assistance Center to quantify the success of the effort overall and to identify areas where additional technical assistance is needed.

There are four proposed changes to Part I of this form. Four additional demographic questions will be asked in Demographic section of the SOAR Data Form Part I to include race, ethnicity, gender, and expanded response options re: involvement in the criminal justice or legal system. These questions will be answered by all 700 case worker respondents, on average 3 times per year. There are two proposed changes to Part II. Two additional response options were added into the Collaborations section of the Qualitative Questionnaire to provide respondents the opportunity to describe collaborations with child-serving organizations along with whether meetings and trainings were for SOAR for Adults or SOAR for Children. These questions will be answered by 75 respondents once per year.

The estimated response burden is as follows:

Form name	Numbers of respondents	Responses per respondent	Total responses	Hours per response	Total hour burden
SOAR Web-based Data Form (Part I)	700	3	2,100	.25	525
Annual Report Questions (Part II)	75	1	75	1	37.50
Total	775		2,175		562.50

Send comments to Carlos Graham, SAMHSA Reports Clearance Officer, Room 15E-57A, 5600 Fishers Lane, Rockville, MD 20857 OR email him a copy at Carlos.Graham@samhsa.hhs.gov. Written comments should be received by January 13, 2023.

Carlos Graham,
Reports Clearance Officer.

BILLING CODE 4162-20-P

DEPARTMENT OF HOMELAND SECURITY

Transportation Security Administration

Intent To Request an Extension From OMB of One Current Public Collection of Information: Cybersecurity Measures for Surface Modes

AGENCY: Transportation Security Administration, DHS.

ACTION: 60-Day notice.

SUMMARY: The Transportation Security Administration (TSA) invites public comment on one currently-approved Information Collection Request (ICR), Office of Management and Budget (OMB) control number 1652-0074, abstracted below, that we will submit to OMB for an extension in compliance with the Paperwork Reduction Act (PRA). On October 26, 2022, OMB approved TSA's request for an emergency approval of this collection to address the ongoing cybersecurity threat to surface transportation and associated infrastructure. TSA is now seeking to renew the collection, which expires on April 30, 2023, with incorporation of the subject of the emergency request. The ICR describes the nature of the information collection and its expected burden. The collection allows TSA to address the ongoing cybersecurity threat to surface transportation systems and associated infrastructure.

DATES: Send your comments by January 13, 2023.

ADDRESSES: Comments may be emailed to TSAPRA@tsa.dhs.gov or delivered to the TSA PRA Officer, Information

Technology (IT), TSA-11, Transportation Security Administration, 6595 Springfield Center Drive, Springfield, VA 20598-6011.

FOR FURTHER INFORMATION CONTACT: Christina A. Walsh at the above address, or by telephone (571) 227-2062.

SUPPLEMENTARY INFORMATION:

Comments Invited

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The ICR documentation will be available at <http://www.reginfo.gov> upon its submission to OMB. Therefore, in preparation for OMB review and approval of the following information collection, TSA is soliciting comments to—

- (1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of the agency's estimate of the burden;
- (3) Enhance the quality, utility, and clarity of the information to be collected; and
- (4) Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Information Collection Requirement

OMB Control Number 1652-0074; *Cybersecurity Measures for Surface Modes*. TSA is specifically empowered to assess threats to transportation;¹ develop policies, strategies, and plans for dealing with threats to transportation;² oversee the implementation and adequacy of security measures at transportation facilities;³ and carry out other appropriate duties relating to

transportation security.⁴ Additionally, under 49 U.S.C. § 114(f)(2),⁵ TSA has the authority to issue Security Directives (SDs) if the Administrator of TSA determines that a regulation or SD must be issued immediately in order to protect transportation security.

On November 30, 2021, OMB approved TSA's request for an emergency approval of this information collection to address the ongoing cybersecurity threat to surface transportation and associated infrastructure. On April 7, 2022, TSA submitted an extension request to OMB, which was approved on October 25, 2022. See ICR Reference Number 202203-1652-003. On October 26, 2022, OMB approved TSA's request for an additional emergency approval, revising this information collection. See ICR Reference Number: 202210-1652-001. The collection covers both mandatory reporting and voluntary reporting of information. The OMB approval allowed for the additional institution of mandatory reporting requirements and collection of information voluntarily submitted. See ICR Reference Number: 202111-1652-003. TSA is now seeking renewal of this information collection for the maximum three-year approval period.

The request for a revised collection was necessary as a result of actions TSA took to address the ongoing cybersecurity threats to the United States' national and economic security posed by this threat to surface transportation and associated infrastructure. On October 18, 2022, TSA issued SD 1580/1582-2022-01 *Rail Cybersecurity Mitigation Actions, Contingency Planning, and Testing*, which applies to Owner/Operators including the "Higher Risk" freight

⁴ 49 U.S.C. 114(f)(15).

⁵ Notwithstanding any other provision of law or executive order (including an executive order requiring a cost-benefit analysis), if the Administrator determines that a regulation or security directive must be issued immediately in order to protect transportation security, the Administrator shall issue the regulation or security directive without providing notice or an opportunity for comment and without prior approval of the Secretary.
