All comments received may be posted without change, including any personal identifiers, contact information, or other personal information provided, to: <http://www.regulations.gov>. SUPPLEMENTARY INFORMATION: On October 8, 2014, the Commission granted a petition to initiate a rulemaking to develop a mandatory safety standard for window coverings. The petition sought to prohibit window covering cords when a feasible cordless alternative exists. The petition requested that all window covering cords be made inaccessible by using passive guarding devices when a feasible cordless alternative does not exist. On January 16, 2015, the Commission published an advance notice of proposed rulemaking (ANPR) initiating rulemaking and seeking information and comment on regulatory options for a mandatory rule to address the risk of strangulation to young children on window covering cords. 80 FR 2327. The comment period on the ANPR was scheduled to end on March 17, 2015.

In a letter dated February 2, 2015, the Window Covering Manufacturers Association (WCMA) requested a 75-day extension of the comment period to complete multiple studies that WCMA commissioned. WCMA states that the request is "based on the need for sufficient opportunity to develop and present a more factual record for CPSC's consideration to permit a well-informed analysis before considering whether the agency can move to the next stage of promulgating such a significant rule."

The Commission has considered WCMA's request. The Commission will grant WCMA's request to extend the comment period for the ANPR until June 1, 2015. The extension will allow WCMA and any other party additional time to complete studies related to questions asked in the ANPR.

Alberta E. Mills,

Acting Secretary, Consumer Product Safety Commission.
