These allocations are based on the countries' historical shipments to the United States. The allocations of the raw cane sugar tariff-rate quota to countries that are net importers of sugar are conditioned on receipt of the appropriate verifications of origin, and certificates for quota eligibility must accompany imports from any country for which an allocation has been provided.

On September 9, 2008, the Secretary of Agriculture established the FY 2009 refined sugar tariff-rate quota at 94,575 metric tons raw value for which the sucrose content, by weight in the dry state, must have a polarimeter reading of 99.5 degrees or more. This amount includes the minimum level to which the United States is committed under the WTO Uruguay Round Agreement (22,000 metric tons raw value of which 1,656 metric tons raw value is specialty sugar) and an additional 72,575 metric tons raw value for specialty sugars. USTR is allocating a total of 10,300

metric tons raw value of refined sugar to Canada, 2,954 metric tons raw value of refined sugar to Mexico, and 7,090 metric tons raw value of refined sugar to be administered on a first-come, firstserved basis. The 74,231 metric tons raw value specialty sugar TRQ, which includes the additional 72,575 metric tons raw value of specialty sugar and the specialty sugar allocation of 1,656 metric tons raw value included in the 22,000 metric tons raw value WTO minimum, will be administered on a first-come, first-served basis in five tranches. The first tranche of 1,656 metric tons raw value will open October 23, 2008. All types of specialty sugars are eligible for entry under this tranche. The second tranche of 25,682 metric tons raw value will open on November 10, 2008. The third, fourth, and fifth tranches of 15,631 metric tons raw value each will open on January 14, 2009; May 19, 2009 and August 24, 2009 respectively. The second, third, fourth and fifth tranches will be reserved for organic sugar and other specialty sugars not currently produced commercially in the United States or reasonably available from domestic sources.

With respect to the tariff-rate quota of 64,709 metric tons for certain sugar-containing products maintained under Additional U.S. Note 8 to Chapter 17 to the Harmonized Tariff Schedule of the United States, USTR is allocating 59,250 metric tons to Canada. The remainder of the sugar-containing products tariff-rate quota is available for other countries on a first-come, first-served basis.

*Conversion factor: 1 metric ton = 1.10231125 short tons.
