

Section 5: Unit to be Occupied on Effective Date of Action

HUD proposes to add an urbanization code to accommodate Puerto Rican addresses; provide for the type of accessible unit identified by the PHA; and include whether the last inspection passed by the unit was an alternative inspection.

Section 6: Assets

HUD proposes to update this section to delineate actual income from imputed income for each family member consistent with HUD's HOTMA rulemaking. HUD will also amend the formula associate with the asset to reflect the HOTMA changes.

Section 8: Expected Income per Year

HUD proposes to revise this section heading to "Deductions and Allowances." HUD would also include a new question for families to indicate if a family is eligible for a medical hardship expense, childcare hardship expense or both, consistent with HUD's HOTMA rulemaking. In addition, HUD would add questions required to be supplied by the PHA to help determine if a family is subject to HOTMA's public housing over-income rule: what the applicable over-income limit for families of the application's size is; if the family is over-income; and the date the over-income family began the 24 consecutive month grace period.

Section 10: Public Housing and Turnkey III

HUD proposes to revise Section 10 heading to remove "and Turnkey III." HUD also proposes to remove the income-based ceiling rent question and replace the "income-based ceiling rent" reference with "flat rent."

Section 11: Section 8: Project Based Certificates and Vouchers

HUD proposes to revise Section 11 heading to remove reference to "Certificates" and add a question to include the HAP Contract ID Number, as assigned by the PBV HAP Contract Collection module in the Housing Information Portal (HIP).

Section 12: Housing Choice Vouchers: Tenant Based Vouchers

HUD proposes to remove the question about if the family qualifies as "Hard to House." HUD also proposes to add items requesting information on whether the family received mobility-related services; if a security deposit was paid by the PHA on behalf of the family; and if the family received a higher payment standard as reasonable accommodation. In addition, HUD

proposes to add from the HUD-50058 MTW Expansion the questions about additional Payments, not HAP Payments, for tenant-based voucher family and financial incentives for property owners.

Section 17: Family Self-Sufficiency (FSS)/Welfare to Work (WtW) Voucher Addendum

HUD proposes to revise Section 17 heading to read "Supportive Services Programs." The section removes the Welfare to Work voucher questions, but provides information on effective date, employment, and services for other supportive services programs, such as ROSS and Jobs Plus. There are also minor amendments to list of benefits a participating family receives, and the services needed by/provided to participating families. HUD also plans to remove the questions about who provides the services. HUD proposes to remove the question about whether the family received a selection preference because of a FSS related service program, given such preference is listed elsewhere in the form. HUD also proposes to add options to the question of why a participant exited the FSS program, to conform with the FSS Final Rule.

HUD-50058 MTW and HUD-50058 MTW Expansion Form: HUD is proposing changes primarily to this form to conform with the changes mentioned above and to comply with HOTMA. HUD also proposes to: remove the date of admission to the MTW program because it was unnecessary; add in a question on the total homeownership assistance payment (HAP); and to remove reference to "Local, Non-Traditional Assistance."

BILLING CODE 4210-67-P

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-7077-N-03]

Privacy Act of 1974; System of Records

AGENCY: Office of Administration, HUD.

ACTION: Notice of a modified system of records.

SUMMARY: In accordance with the Privacy Act of 1974, as amended, the Department of Housing and Urban Development, gives notice of a proposed revision of an existing Privacy Act system of records. The system of records is being updated in support of a follow-up information collection with the participants of the Homeless Families Impact Study (now called the Family Options Study). The overall goal of the Family Options Study is to determine which housing and service intervention works best to promote housing stability, family preservation, and family well-being, and self-sufficiency for homeless families with children. The new information collected will be added to the existing Homeless Families Impact Study Data Files. The Department proposes to expand the data collected under the previous study to capture additional data to determine the effects that housing and service interventions has had on the young children who are part of the sample. Refer to the "Categories of Records" section to identify new record types. Additionally, this Notice updates the routine uses of the data collected. This notice supersedes the previously published notice (February 26, 2014).

DATES: Comments will be accepted on or before March 10, 2023. This proposed action will be effective immediately upon publication. Routine uses will become effective on the date following the end of the comment period unless comments are received which result in a contrary determination.

SUPPLEMENTARY INFORMATION: HUD launched the Family Options Study in 2008 with the intent of generating evidence about the relative effectiveness of various housing and services interventions designed to address family homelessness. HUD awarded the contract for the Family Options Study to Abt Associates and their partner, Vanderbilt University, who have conducted prior phases of the study and will conduct this next phase of the evaluation. Specific changes to the SORN include:

Changes to categories of records in the system and sources categories. The upcoming follow-up information collection with the participants of the Family Options Study will include additional categories of records which will be stored as part of the Homeless Families Impact Study Data Files.

Updated routine uses. The routine uses have been updated to remove those which are no longer relevant to this data collection (including the Congressional Inquiries Routine Use, the Department of Justice for Litigation Disclosure Routine Use, the Court or Law

Enforcement Proceeding Routine Use, and the Law Enforcement Investigation Routine Use) and to add a new Research and Statistical Analysis Disclosure Routine Use.

Updated the System Location to reflect current addresses of contractors. The contractor has moved offices since the publication of the original SORN in 2014, and thus the System Location has been updated to reflect the current address.

Updated the Purpose to reflect the additional phase of the study. The original SORN was published in 2014 and did not forecast this new followup information collection, thus the SORN is being revised to refer to this additional phase of the study.

Updated record retention and disposal and safeguards sections to reflect current retention requirements and current safeguard procedures. This section has been updated to reflect current record retention requirements and current safeguard procedures.
