Overview of Supervision Fees (Fees for Supervision of Official Inspection and Weighing Services Performed by Delegated States and Designated Agencies in the United States)

The supervision tonnage fee for 2025/26 is \$0.008 per ton. FGIS calculates the supervision tonnage fee using the prior year's actual costs and the 5-year average tonnage of domestic U.S. grain shipments inspected, weighed, or both, including land carrier shipments to Canada and Mexico.

Operating reserve adjustment. In order to maintain an operating reserve of not less than 3 and not more than 6 months, FGIS reviewed the value of the operating reserve at the end of FY2024 to ensure that an operating reserve of 6 months is maintained. The operating reserve adjustment is the difference between FY2024 ending reserves and the operating reserve threshold, which is equivalent to 6 months of supervisory costs. The operating reserve is less than the operating reserve threshold, and the adjustment is \$398,289.

Supervision tonnage fee. FGIS adds the total prior year supervision costs and the operating reserve adjustment, then divides the result by the previous 5-year average tonnage. If the calculated fee is zero or a negative value, FGIS will suspend collection of supervision tonnage fees for the next calendar year. The calculation, based on FY2024 supervision costs of \$1,363,509, is \$1,363,509 plus the operating reserve adjustment of \$398,289, which equals \$1,761,798, divided by a 5-year average tonnage of 219,633,243 which equals \$0.008 per ton.

Therefore, for 2025, FGIS will assess a supervision tonnage fee of \$0.008 per ton on domestic shipments officially inspected and/or weighed, including land carrier shipments to Canada and Mexico, performed by delegated States and/or designated agencies on or after October 1, 2025. The specific amounts

in each rate calculation are available upon request from FGIS. The Supervision fee will be published in FGIS Directive 9180.74 and on the Agency's public website.

Miscellaneous Fees for Other Services Calculations Under 7 CFR 800.71(d)

Registration certificates and renewals. FGIS calculates the application fee by multiplying the Direct Service non-contract hourly rate (Table 1) by a quantity of five. The resulting fee is expected to cover FGIS personnel costs to review applications, fee publication expenses, and administrative expenses. The Direct Service non-contract hourly rate is \$100.00. Thus, the application fee for 2025/26 is \$100.00 times 5, or \$500.00. This fee will be published in FGIS Directive 9180.74 and on the Agency's public website.

Designation amendments. FGIS calculates the rate using the **Federal Register** publication rate for three columns, plus one hour of noncontract hourly rate from Table 1 of Direct Service Fees. The fee covers FGIS personnel costs, administrative expenses, and costs for publishing notices regarding the designation of official service providers in the **Federal Register**. The **Federal Register** publication rate is \$151 per column, and the Direct Service non-contract hourly rate is \$100.00. FGIS calculates the fee as \$553.00 for 2025/26. This fee will be published in FGIS Directive 9180.74 and on the Agency's public website.
