

Government's best interest. Failure to collect this information would adversely affect the quality of products and services DHS receives from contractors.

Many sources of the requested information use automated word processing systems, databases, spreadsheets, project management and other commercial software to facilitate preparation of material to be submitted. With Government-wide implementation of e-Government initiatives, it is commonplace within many of DHS's Components for submissions to be electronic.

Information collection may or may not involve small business contractors, depending on the particular transaction. The burden applied to small businesses is the minimum consistent with the objective of ensuring contract compliance and protecting the interest of the Government.

Less frequent incidence of collecting such information as resumes indicating the level of contractor expertise, permits and licenses, and inspection reports will negatively affect the quality of products and services DHS receives from contractors. Potentially, contractors could perform on contracts without sufficient experience and expertise and could perform contracts with outdated licenses and negative inspection reports, placing the Department's operations in jeopardy. Additionally, less frequent collection of information related to organizational conflicts of interest inhibit DHS from determining the existence of true conflicts of interest during the performance of contracts.

Failure to collect this information would adversely affect the quality of products and services DHS receives from contractors. For example, potentially, contractors who are lead system integrators could acquire direct financial interests in major systems the contractors are contracted to procure, which would compromise the integrity of acquisitions for the Department. In addition, contractors who own, control or operate a business providing protective guard services could possess felony convictions during the performance of contracts, putting the Department at risk. Furthermore, contractors could change key personnel during the performance of contracts and use less experienced or less qualified personnel to reduce costs, which would adversely affect DHS's fulfillment of its mission requirements.

Disclosure/non-disclosure of information is handled in accordance with the Freedom of Information Act, other disclosure statutes, and Federal and agency acquisition regulations.

The burden estimates provided above are based upon definitive contract award data reported by DHS and its Components to the Federal Procurement Data System (FPDS) for FY 2019. No program changes occurred; however, the burden was adjusted to reflect a decrease in the number of respondents within DHS for FY 2019 in the amount of 6,612, as well as a decrease in the average hourly wage rate.

The Office of Management and Budget is particularly interested in comments which:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

3. Enhance the quality, utility, and clarity of the information to be collected; and

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

OMB Approval Number: 2502-0573.

OMB Expiration Date: 01/31/2021.

Type of Request: Revision of a currently approved collection.

Form Number: Form HUD-9900, Application for Approval as a Housing Counseling Agency; HUD-9900A, Screening for Ineligible Participants.

Description of the need for the information and proposed use: The

Office of Housing Counseling is responsible for administration of the Department's Housing Counseling Program, authorized by Section 106 of the Housing and Urban Development Act of 1968 (12 U.S.C. 1701w and 1701x). The Housing Counseling Program supports the delivery of a wide variety of housing counseling services to homebuyers, homeowners, low- to moderate-income renters, and the homeless. The primary objective of the program is to educate families and individuals in order to help them make smart decisions regarding improving their housing situation and meeting the responsibilities of tenancy and homeownership, including through budget and financial counseling. Counselors also help borrowers avoid predatory lending practices, such as inflated appraisals, unreasonably high interest rates, unaffordable repayment terms, and other conditions that can result in a loss of equity, increased debt, default, and possible foreclosure. Counselors may also provide reverse mortgage counseling to elderly homeowners who seek to convert equity in their homes to pay for home improvements, medical costs, living expenses or other expenses. Additionally, housing counselors may distribute and be a resource for information concerning of fair housing and fair lending requirements of the Fair Housing Act, as well as finding units accessible to persons with disabilities. The Housing Counseling Program is instrumental to achievement of HUD's mission. The Program's far-reaching effects support numerous departmental programs, including Federal Housing Administration (FHA) single family housing programs.

Approximately 1,700 HUD-participating agencies provide housing counseling services nationwide currently. Of these, approximately 975 have been directly approved by HUD. HUD maintains a list of these agencies so that individuals in need of assistance can easily access the nearest HUD-approved Housing Counseling Agency (HCA) via HUD's website, an automated 1800 Hotline, or a smart phone application. Form HUD-9900, Application for Approval as a Housing Counseling Agency, is necessary to make sure that people who contact a HUD-approved HCA can have confidence they will receive quality service and these agencies meet HUD requirements for approval.
