Information Collection Request Title: National Standards for Culturally and Linguistically Appropriate Services (CLAS) in Health and Health Care: Evaluation of Awareness, Adoption, and Implementation

Abstract: The Office of Minority Health (OMH), Office of the Secretary (OS), Department of Health and Human Services (HHS) is requesting a new approval from OMB for data collection on an evaluation project entitled "National Standards for Culturally and Linguistically Appropriate Services (CLAS) in Health and Health Care: Evaluation of Awareness, Adoption, and Implementation." The purpose of this assessment is to systematically describe and examine the awareness, knowledge, adoption, and implementation of the HHS OMH's National Standards for Culturally and Linguistically Appropriate Services in Health and Health Care (hereafter referred to as the National CLAS Standards) in a sample of health and health care organizations, and to use the resultant data to develop a preliminary, model of implementation to guide organizational adoption and implementation of the National CLAS Standards. Originally released in 2001, the HHS OMH's National CLAS Standards are a set of recommended action steps intended to advance health

equity, improve quality, and help eliminate health care disparities. The National CLAS Standards, revised in 2013, are comprised of 15 Standards that provide health and health care organizations with a blueprint for successfully implementing and maintaining culturally and linguistically appropriate services.

Despite increased recognition of the National CLAS Standards as a fundamental tool for health and health care organizations to use in their efforts

to become more culturally and linguistically competent, neither the original nor the enhanced National CLAS Standards have been systematically evaluated in terms of public awareness, organizational adoption and implementation, or impact on health services outcomes. There is a need, then, to collect information from health and health care organizations to understand how and to what extent the *National CLAS Standards* have been

utilized by its intended audiences.

Likely Respondents:

The information to be collected as part of this assessment will come from five categories of respondents: Training and Development Specialists and Managers; Other Management; Health and Health Care Organization Executives and Managers; Health and Health Care Providers, Managers, and Support Staff; Health Care Practitioners; and Technical Staff.

TOTAL ESTIMATED ANNUALIZED BURDEN—HOURS

Form name	Type of respondent	Number of respondent	Number responses per respondent	Average burden per response (hours)	Total burden (hours)
<i>National CLAS Standards</i> Stakeholder Interview.	Training and Development Specialists and Managers; Other Management Occupations.	21	1	45/60	16

<i>National CLAS Standards</i> Experience Form.	Health Care Practitioners and Technical Occupations.	240,000	1	10/60	40,000
Total					44,969

OS specifically requests comments on (1) the necessity and utility of the proposed information collection for the proper performance of the agency's functions, (2) the accuracy of the estimated burden, (3) ways to enhance the quality, utility, and clarity of the information to be collected, and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.
