FOR FURTHER INFORMATION CONTACT: Jennifer Skidmore and Erin Markin, Ph.D., (301) 427-8401.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222 through 226).

The applicant proposes to import and export parts from three species of angelshark for research into the population genetics and basic breeding biology. Unlimited samples from the following species will be imported and potentially exported annually: 800 individuals of the common angelshark (*Squatina squatina*) and 40 individuals each of the other species (sawback [*Squatina aculeata*] and smoothback [*Squatina occulta*] angelsharks). These parts would be from live capture research activities primarily in the Northeastern Atlantic, but opportunistic world-wide import and export is also requested. The requested duration of the permit is 5 years.

Dated: October 31, 2022.

BILLING CODE P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Chesapeake Bay Watershed Environmental Literacy Indicator Tool

AGENCY: National Oceanic & Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of information collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public

comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before January 3, 2023.

ADDRESSES: Interested persons are invited to submit written comments to Adrienne Thomas, NOAA PRA Officer, at NOAA.PRA@noaa.gov. Please reference OMB Control Number 0648-0753 in the subject line of your comments. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or specific questions related to collection activities should be directed to Shannon Sprague, Environmental Literacy and Partnerships Manager, NOAA Chesapeake Bay Office, 200 Harry S Truman Parkway, Suite 460, Annapolis, MD 21401, 240-653-9023, shannon.sprague@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for extension of a currently approved information collection. The Chesapeake Bay Watershed Agreement of 2014 required monitoring of progress toward the environmental literacy goal: "Enable students in the region to graduate with the knowledge and skills needed to act responsibly to protect and restore their local watersheds." NOAA, on behalf of the Chesapeake Bay Program, will ask the state education agencies for Maryland, Pennsylvania, Delaware, Virginia, West Virginia, and the District of Columbia to survey their local education agencies (LEAs) to determine: (1) LEA capacity to implement a comprehensive and systemic approach to environmental literacy education, (2) student participation in Meaningful Watershed Educational Experience during the school year, (3) sustainability practices at schools, and (4) LEA needs for improving environmental literacy education programming. LEAs (generally school districts, in some cases charter school administration) are asked to complete the survey on the status of their LEA on a set of key indicators for the four areas listed above. One individual from each LEA is asked to complete their survey once every two years. The results of the biennial ELIT survey will be analyzed and reported to the internal stakeholders of the Chesapeake Bay Watershed Agreement. Participating states will receive a summarized report of findings for the full watershed, a summary of findings for their state, and comparisons of

results between states. These aggregated results will be used by the state agencies to understand progress of their school districts over time, and to inform decision-making about strategies and priorities for future work with school districts. Additionally, NOAA will use this information to inform priorities within their B-WET funding opportunities and technical assistance. The biennial reporting will also be used by the Chesapeake Bay Program to understand progress of school districts in the watershed, understand differences between jurisdictions, and guide strategy for providing targeted support in each state.

II. Method of Collection

Data will be collected electronically via Qualtrics or through a platform with similar functionality.

III. Data

OMB Control Number: 0648-0753.

Form Number(s): None.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for extension of a currently approved information collection.

NOAA provides educators an opportunity to gain first-hand experience with field research activities through the Teacher at Sea Program. Through this program, educators spend up to 3 weeks at sea on a NOAA research vessel, participating in an ongoing research project with NOAA scientists. The application solicits information from interested educators including: basic personal information, teaching experience, and ideas for applying program experience in their classrooms, plus two recommendation and a NOAA Health Services Questionnaire required of anyone selected to participate in the program.

Once educators are selected and participate on a cruise, they write a report detailing the events of the cruise and ideas for classroom activities based on what they learned while at sea. These materials are then made available to other educators so they may benefit from the experience, without actually going out to sea by themselves. This collection supports NOAA's mission by providing educators an opportunity to gain first-hand experience with field research activities through the Teacher at Sea Program.

NOAA does not collect information from this universe of respondents for any other purpose than to determine which educators will participate in the NOAA Teacher at Sea Program.

II. Method of Collection
