

In *American Clean Power Ass'n v. FERC*, the United States Court of Appeals for the District of Columbia Circuit remanded to the Commission certain orders<sup>1</sup> concerning transmission owner (TO) Initial Funding<sup>2</sup> in the Midcontinent Independent System Operator, Inc. (MISO) region.<sup>3</sup> The *American Clean Power* remand proceeding is pending before the Commission.

On June 13, 2024, the Commission issued the Order to Show Cause finding that the existing open access transmission tariffs of certain regional transmission organizations and independent system operators, including MISO, appear to be unjust, unreasonable, and unduly discriminatory or preferential because they include provisions for transmission owners to unilaterally elect TO Initial Funding.<sup>4</sup>

Upon consideration, given the common issues raised in the *American Clean Power* remand proceeding and the Order to Show Cause proceeding, notice is hereby given that the *American Clean Power* remand proceeding is held in abeyance pending the outcome of the Order to Show Cause proceeding.

Dated: June 13, 2024.

**Debbie-Anne A. Reese,**  
Acting Secretary.
