SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995, BOEM provides the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps BOEM assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand BOEM's information collection requirements and provide the requested data in the desired format.

Title of Collection: "Oil and Gas Production in the Outer Continental Shelf."

Abstract: This ICR addresses regulations under 30 CFR part 550, subparts A and K, which deal with regulatory requirements of oil, gas, and sulfur operations on the Outer Continental Shelf (OCS). This request also covers the related notices to lessees and operators (NTLs) that BOEM issues to clarify and provide guidance on some aspects of its regulations, and forms BOEM-0127, BOEM-0140, BOEM-1123, and BOEM-1832.

The OCS Lands Act, as amended (43 U.S.C. 1331 *et seq.*), authorizes the Secretary of the Interior to prescribe rules and regulations to administer leasing of the OCS and all operations conducted under a lease. Leasing on the OCS must balance orderly energy resource development with protection of the human, marine, and coastal environments; ensure the public receives fair market value for the resources of the OCS; and preserve and maintain market competition.

BOEM uses the information collected under these regulations to ensure that leasing and operations on the OCS are carried out in a safe and environmentally sound manner, do not interfere with the rights of other users on the OCS, and balance the protection and development of OCS resources.

OMB Control Number: 1010-0114.

Form Number:

- BOEM-0127, "Sensitive Reservoir Information Report;"
- BOEM-0140, "Bottomhole Pressure Survey Report;"
- BOEM-1123, "Designation of Operator;" and

- BOEM–1832, “Notification of Incidents of Noncompliance.”

Type of Review: Renewal of a currently approved information collection.

Respondents/Affected Public: Federal oil, gas, or sulfur lessees and operators.

Total Estimated Number of Annual Responses: 5,621 responses.

Total Estimated Number of Annual Burden Hours: 27,849 hours.

Respondent's Obligation: Mandatory.

Frequency of Collection: On occasion, monthly.

Total Estimated Annual Non-Hour Burden Cost: \$165,492.

Estimated Reporting and Recordkeeping Hour Burden: The current annual burden for this collection is 18,323 hours and 5,302 responses. BOEM proposes to increase the annual burden to 27,849 hours and 5,621 responses. BOEM conducted public outreach regarding the industry's

recommendation to increase the number of static bottomhole pressure surveys, which is expected to cause an increase in sensitive reservoir information reports. Based on industry recommendations, BOEM is asking OMB for approval of an additional 9,526 annual burden hours and 319 responses.

The following table details the individual components and respective burden hour estimates of this ICR.
