SUPPLEMENTARY INFORMATION:

I. Abstract

Under 35 U.S.C. 2 and 37 CFR 1.31-1.36, a patent applicant or assignee of record may grant power of attorney to a person who is registered to practice before the United States Patent and Trademark Office (USPTO) to act for them in a patent or application. A power of attorney may also be revoked, and a registered practitioner may also withdraw as attorney or agent of record under 37 CFR 1.36. The rules of practice (37 CFR 1.33) also provide for the applicant, assignee, or practitioner of record to supply a correspondence address and daytime telephone number for receiving notices, official letters, and other communications from the USPTO. Maintaining a correct and updated correspondence address is necessary so that official correspondence from the USPTO related to a patent or application will be properly received by the applicant, assignee, or practitioner.

The USPTO's Customer Number practice permits applicants, assignees, and practitioners of record to change the correspondence address or representatives of record for a number of patents or applications with one change request instead of filing separate requests for each patent or application.
